Re: Business practice manual change management report

This memorandum does not require Board action.

As required by the Federal Energy Regulatory Commission, Management provides this report to inform the ISO Board of Governors on the status of the business practice manual change requests submitted by stakeholders and/or the California Independent System Operator Corporation.

The ISO inaugurated the public change management process for business practice manuals (BPMs) on April 1, 2009. Both the ISO and stakeholders use the same electronic system and process to submit and track proposed changes to the BPMs. The process includes stakeholder review, ISO approval or rejection, and a possible appeal to the BPM Appeals Committee, which is comprised of three ISO officers.

As of November 27, 2019, the following table represents the active Proposed Revision Requests (PRRs) in the BPM change management system.

Business Practice Manual (BPM)	# of PRR's

Credit Management and Market Clearing	1

PROCESS OVERVIEW

The ISO held one monthly BPM change management stakeholder meeting since the submittal of the previous Board report. There was a stakeholder meeting on November 19, 2019, in which sixteen stakeholders participated. Based on stakeholder comments during the meeting and comments entered into the BPM change management electronic system, it appears that stakeholders are generally satisfied with the process.
