JOINT MOTION FOR AN EXTENSION OF TIME

Williams Power Company, Inc. ("Williams" or "Company"), the California Independent System Operator Corporation ("CAISO"), California Public Utilities Commission ("CPUC"), California Electricity Oversight Board ("CEOB") and Southern California Edison Company ("SCE")¹ pursuant to Rule 212 and Rule 2008 of the Commission's Rules of Practice and Procedure, 18 C.F.R. § 385.212 and § 385.2008, hereby respectfully and jointly move for a second extension of time to submit the Company's 2005 "Schedule F Informational Filing" and related and revised tariff pages. The Schedule F Informational Filing and the submission of related and revised tariff pages are the product of two "Reliability Must-Run" Agreements (the "RMR Agreements") between Williams and the CAISO. The RMR Agreements govern the delivery of "Energy" and the provision of "Ancillary Services" by Williams to the CAISO.

By prior request, the Parties requested an extension of time to determine whether an agreement on the 2005 Schedule F Informational Filing and revised tariff pages (the "2005 RMR Filing") could be reached and, if so, incorporated into a then tentative agreement resolving the Schedule F Informational Filing and related tariff pages submitted by Williams on December 30, 2004 (the "2004 RMR Filing").² The Commission approved the initial extension request, noting

¹ Williams, the ISO, CPUC, CEOB and SCE are sometimes referred to hereinafter as the "Parties."

² See, Joint Motion for an Extension of Time" (October 28, 2005).

that the parties "require additional time to continue settlement discussions on the 2005 RMR Filing."³

The Parties are pleased to announce that a final agreement resolving both the 2005 RMR Filing, which covers 2006 rates, and the 2004 RMR Filing, which covers 2005 rates, has been reached. Specifically, the terms and conditions to an "Offer of Settlement" have been agreed upon and the related RMR "Schedules" and "Workpapers" are being revised to reflect the final agreement. An "Explanatory Statement" is also being drafted. Upon completion of the requisite Schedules, Workpapers and Explanatory Statement, a final settlement agreement will be routed for final approval by the senior management of each Party. The Parties anticipate filing a final Offer of Settlement and Explanatory Statement on or before December 16, 2005.

STATEMENT OF ISSUE

Pursuant to Rule 203(a)(7), 18 C.F.R § 385.207(a)(7), the Parties submit the following issue:

Whether the Parties have satisfied the requirements of Rule 212 and Rule 2008 of the Commission's Rules of Practice and Procedure and, therefore, demonstrated good cause for an extension of the deadline for submission of the 2005 RMR Filing?

In support of the instant Motion, the following is shown:

1. By Letter Order, issued May 28, 1999, the Commission approved the RMR Agreements between Williams and the ISO. As approved by the Commission, the RMR Agreements authorize Williams to request Commission permission to update certain rates, schedules and terms of service pursuant to the Federal Power Act.

2. Schedule F of the RMR Agreements mandates the annual submission of an "Informational Filing" detailing the calculations supporting the Annual Fixed Revenue

³ See, "Notice of Extension of Time" (November 1, 2005).

Requirements and Variable O&M Rates. The rates and charges proposed in the Schedule F Informational Filing are reflected in revised tariff pages submitted to the Commission for approval. Schedule F also specifies an annual November 1 deadline for the submission of the Informational Filing and revised tariff pages.

3. Pursuant to the RMR Agreements and by letter dated September 16, 2004 (the "September 16 Letter"), the CAISO formally extended the term of the RMR Agreement for an additional year commencing January 1, 2005. The September 16 Letter also designated Alamitos Generating Unit 3 and Huntington Beach Generating Units 1 and 2 as RMR Units. On December 30, 2004, and after extensive discussions and negotiations, Williams filed the 2004 RMR Filing. The proceeding to review the 2004 RMR Filing was docketed by the Commission as ER05-406-000.

4. By letter dated September 23, 2005 (the "September 23 Letter"), the CAISO formally extended the term of the RMR Agreement for an additional year commencing January 1, 2006. The September 23 Letter also designated the Alamitos Generating Unit 3 and the Huntington Beach Generating Units 1 and 2 as RMR Units.

5. As noted above, the Parties have reached an agreement resolving both the 2004 RMR Filing and the 2005 RMR Filing. The Parties anticipate filing a final Offer of Settlement and Explanatory Statement on or before December 16, 2005. The Parties, accordingly respectfully request that the Commission extend, to December 16, 2005, the deadline for submission of either a final settlement agreement resolving both the 2004 RMR Filing and the 2005 RMR Filing or the 2005 RMR Filing.

6. The Parties respectfully submit that no party will be prejudiced by Commission approval of the time extension request

WHEREFORE, in view of the foregoing, the Parties respectfully request that the Commission extend, to December 16, 2005, the deadline for submission of the 2005 RMR Filing.

Respectfully submitted,

WILLIAMS POWER COMPANY, INC.
