

Decision on ISO Planning Standards

Neil Millar,
Executive Director of Infrastructure Development

Board of Governors Meeting
General Session
November 2, 2017

Changes to ISO Transmission Planning Standards

- All changes are within Voltage Standard section of the ISO Planning Standards:
 - Update of the ISO Planning Standards reflect changes to WECC Regional Criteria (TPL-001-WECC-CRT-3)
 - In addition, updates memorializes specific voltage limits in the ISO Planning Standard for each Participating Transmission Owner area
- ISO held a stakeholder call to review changes on September 13, 2017:
 - No significant comments or objections were provided

Management recommends approval of the revised ISO planning standards:

- The revised planning standards are a much needed update to the current standards.
