

Estimation of May 2015 T+9M Recalculation Billing

California ISO	Version: 1.0
Estimation of May 2015 T+9M Recalculation Billing	Last Updated: 03/16/2016

An adjustment amount assessed previously on May 2015 T+55B monthly statement under charge code (CC) 8999 was inadvertently reversed on the T+9M monthly statement. Consistent with Section 11.29.10.5 of the CAISO tariff, the ISO issued an out of cycle invoice to re-assess CC 8999 settlement.

The out of cycle invoice was issued on March 16, 2016, and market participants affected by this error were notified of the invoice prior to issuance.
