

**COMMENTS OF IDAHO POWER COMPANY  
ON CAISO’S IMBALANCE CONFORMANCE ENHANCEMENTS  
DRAFT TARIFF LANGUAGE**

Idaho Power Company (“Idaho Power”) appreciates the opportunity to comment on the California Independent System Operator’s (“CAISO”) Imbalance Conformance Enhancements draft tariff language.

Idaho Power has one question on the draft tariff language. The last sentence of proposed Section 27.12.1 states, “The CAISO and the EIM Entity will log Operator conformances.” Idaho Power is not clear on where or how conformances are to be logged. How does CAISO envision this occurring? Will the tool require a comment to be entered or will there be another mechanism?

Idaho Power appreciates CAISO’s work on this initiative and the opportunity to file comments. Idaho Power looks forward to continued collaboration with CAISO on this and other issues.
