**Re: AES Huntington Beach, L.L.C., Docket No. ER13-351-000
Informational Filing and Request for Privileged Treatment**

Dear Ms. Bose:

The California Independent System Operator Corporation submits this informational filing, pursuant to the January 4, 2013 order of the Federal Energy Regulatory Commission approving the Reliability Must-Run Agreement for synchronous condensers at AES Huntington Beach Generating Station Units 3 and 4 (“RMR Agreement”) ¹, and the May 1, 2014 order granting modification of the reporting schedule; accepting the CAISO’s proposal to submit reports by the tenth day following the end of each subsequent three-month period of operations.² In accordance with the January 4, 2013 and May 1, 2014 orders, the ISO submits its report for the months of March, April, and May 2014; attached as Appendix A.

The ISO is seeking privileged treatment of Appendix A pursuant to 18 C.F.R. Section 388.112 and Article 5.5 of the RMR Agreement. Article 5.5 of the RMR Agreement requires the RMR owner, on a monthly basis, to provide the ISO and the Responsible Utilities certain information, including the “Counted Service Hours,” and requires the ISO to treat this information as confidential. Counted Service Hours is equivalent to “hours of operation” and, therefore, the ISO is required to treat this information as confidential.
