San Francisco, CA 94102

RE: Docket # I.00-11-001, Order Instituting Investigation Into Implementation of Assembly Bill 970 Regarding the Identification of Electric Transmission and Distribution Constraints, Actions to Resolve Those Constraints, and Related Matters Affecting the Reliability of Electric Supply

Dear Clerk:

This letter is filed in the above captioned docket as directed by Judge Gottstein during the January 14, 2003 prehearing conference. Judge Gottstein requested the California Independent System Operator ("CA ISO") to submit a letter indicating whether it can participate as discussed during the prehearing conference, in a process to develop a renewables transmission plan consistent with Public Utilities Code Section 383.6.

Public Utilities Code Section 383.6 requires the California Public Utilities Commission ("CPUC") to develop, in cooperation with the California Energy Commission ("CEC"), the CA ISO and the electric corporations, a comprehensive transmission plan for renewable electric generation facilities. This plan is to be submitted to the Legislature by December 1, 2003.

In its prehearing conference statement, the CA ISO encouraged the CPUC to coordinate with the CA ISO's grid planning process in the preparation of the renewables transmission plan. During the prehearing conference, after considerable discussion among the parties, Judge Gottstein outlined the following approach for coordination among the CPUC, the CEC, the CA ISO, the electric utilities and stakeholders in the preparation of the plan:

- 1) The CEC will develop a renewables resource assessment, and issue a draft assessment by July 1, 2003. This draft assessment will identify renewables resources with their location and MWs.
- 2) In the Spring, the utilities will develop their transmission plan base cases and study plans through the usual stakeholder process overseen by the CA ISO grid planning department.
- 3) In July, the CA ISO will host an additional stakeholder meeting to facilitate development by the utilities of study plans to assess, using the base cases developed for the regular planning

process, the additional transmission facilities that would be required to accommodate the resources identified by the CEC.

- 4) Consistent with the study plans developed in the stakeholder meeting, the utilities will undertake the studies to identify transmission additions needed to accommodate the renewable resources identified by the CEC and file their final reports in this docket by August 29, 2003.
- 5) All parties will have an opportunity to comments on the utility reports by September 15, 2003.
- 6) A workshop will be hosted by the Energy Division to discuss the utility reports and the comments on September 23, 2003.
- 7) The CPUC Energy Division will prepare a draft report setting forth the renewables transmission plan by October 15, 2003, which will be incorporated in a draft decision issued on the same date.
- 9) Parties will be allowed to file comments on the draft decision by November 1, 2003.
- 10) The Commission could then issue a final decision on the plan in time for its submission to the Legislature by December 1, 2003.

I have conferred with my colleagues at the CA ISO and have confirmed that the CA ISO will host an additional stakeholder meeting to develop study plans for the assessment of the need for transmission additions to accommodate the renewable resources identified by the CEC. The CA ISO is very pleased to work cooperatively with the CPUC, the CEC, the electric utilities and stakeholders to facilitate the development of the renewables transmission plans in a coordinated fashion that takes advantage of the work that is already undertaken in the context of the CA ISO's grid planning process.

Sincerely,

Jeanne M. Solé  
Regulatory Counsel

Cc: Attached Service List

PROOF OF SERVICE

I hereby certify that on January 24, 2003, I served a letter from the California Independent System Operator to the California Public Utilities Commission in Docket # 1.00-11-001, Order Instituting Investigation Into Implementation of Assembly Bill 970 Regarding the Identification of Electric Transmission and Distribution Constraints, Actions to Resolve Those Constraints, and Related Matters Affecting the Reliability of Electric Supply.

DATED at Folsom, California on January 24, 2003.

---
