

**BEFORE THE PUBLIC UTILITIES COMMISSION

Rulemaking 23-10-011

**CALIFORNIA INDEPENDENT SYSTEM OPERATOR CORPORATION
NOTICE OF AVAILABILITY OF
FINAL 2025 FLEXIBLE CAPACITY NEEDS ASSESSMENT AND FINAL 2025
AVAILABILITY ASSESSMENT HOURS**

Pursuant to Rule 1.9(d) of the California Public Utilities Commission's (Commission) Rules of Practice and Procedure, the California Independent System Operator Corporation (CAISO) hereby provides notice to the service list for Rulemaking 23-10-011 that its Final 2025 Flexible Capacity Needs Assessment and Final 2025 Availability Assessment Hours have been posted publicly on the CAISO's website.

The Final 2025 Flexible Capacity Needs Assessment is included in the CAISO's filing as Attachment A and is also available at the following link as of May 13, 2023:

In addition to providing the assessment, the CAISO's filing includes as Attachment B a spreadsheet that reflects how much total flexible capacity should be allocated amongst the Commission's jurisdictional load serving entities.

The 2025 Flexible Capacity Needs Assessment and 2025 Availability Assessment Hours were vetted through the CAISO's annual flexible capacity needs assessment stakeholder

process.¹ The CAISO posted a draft Flexible Capacity Needs Assessment and draft 2025 Availability Assessment Hours on April 11, 2024. The CAISO received no stakeholder comments on the draft report and draft assessment hours. There were no changes to the 2025 flexible capacity requirements or allocations between the draft and final reports. In addition, the recommendation for the 2025 Availability Assessment Hours remains the same in the final report as in the draft report.

The CAISO recommends the Commission allocate the total 2025 flexible capacity requirements reflected in Attachment B amongst its jurisdictional load serving entities and looks forward to consulting with the Commission as the CAISO establishes the 2025 Availability Assessment Hours.
