Meeting Minutes Review

The February 1st meeting minutes have been posted.

Weekly Market Performance Report

During the week of January 24-February 6, 2018, the markets were quiet and loads were mild. There was congestion observed in both day-ahead and real-time market due to planned outages in Southern California. The reasons for the real-time price spikes are listed in the report.

Questions on the Weekly Market Performance Report

None

Price Correction Reports

During the week of January 29-February 2, 2018, the ISO processed 2578 price corrections due to software defects and data input errors.

Questions on Price Correction Report

None

General Questions

Q: Can you explain variations in Unaccounted for Energy (UFE) for November 2017? There are big shifts month-to-month and between T+12 and T+55 statements.

A: UFE is attributable to meter measurement errors, Load profile errors, Energy theft, and distribution loss deviations. Changes to SC-submitted load between T+12 and T+55 can cause differences in charges.

General Reminders

¹ The California ISO (CAISO) hosts this bi-weekly market update conference call, generally at 10:15AM PST bi-monthly on Thursdays. This call is an opportunity for market participants to ask general questions regarding the market. Please send any questions to [CIDI system](mailto:CIDI@caiso.com), which includes questions that have proprietary information and that might be commercially sensitive. Only general market-related questions which are neither proprietary, nor non time-sensitive should be sent to market_issues@caiso.com.

- **NOTE:** The current best practice, and preferred method, of asking questions is to route through the **Customer Inquiry, Dispute and Information** system, “CIDI”.
- Please submit your questions ahead of the call; there are occasions when we have to gather information: submission ahead of time allows us more preparation time to reply.
- To add general comments/questions/requests to the **action item list or meeting agenda**, market participants should also open corresponding CIDI tickets with both the Functional Environment as “Market Performance” and SCID as “XPUB” by close of business (COB) on Mondays.
