Updates

There was an issue yesterday, June 20, that delayed the start of the Day-Ahead market for trade date June 21, 2018. This issue affected the SIBR application and the ISO is reviewing the event to determine if any software fixes are required. The ISO will provide an update about this issue in a future call.

Meeting Minutes Review

The June 7 meeting minutes were posted.

Weekly Market Performance Report

During the week of May 30-June 12, 2018, the Day-Ahead and Real-Time markets were generally quiet. There are some \$0 or below \$0 prices in the day-ahead market due to mild temperatures and oversupply conditions. The reasons for the real-time market price spikes are listed in the report.

General Reminders

- **NOTE:** The current best practice, and preferred method, of asking questions is to route through the **C**ustomer **I**nquiry, **D**ispute and **I**nformation system, "CIDI".

¹ The California ISO (CAISO) hosts this bi-weekly market update conference call, generally at 10:15AM PST bi-monthly on Thursdays. This call is an opportunity for market participants to ask general questions regarding the market. Please send any questions to [CIDI system](#), which includes questions that have proprietary information and that might be commercially sensitive. Only general market-related questions which are neither proprietary, nor non time-sensitive should be sent to market_issues@caiso.com.

- Please submit your questions ahead of the call; there are occasions when we have to gather information: submission ahead of time allows us more preparation time to reply.
- To add general comments/questions/requests to the **action item list or meeting agenda**, market participants should also open corresponding CIDI tickets with both the Functional Environment as “Market Performance” and SCID as “XPUB” by close of business (COB) on Mondays.
