## **II. BACKGROUND**

On December 23, 2002, Southern California Edison Company filed revisions to its Transmission Owner Tariff (TO Tariff), FERC Electric Tariff, Substitute First Revised Original Volume No. 6, to reflect (1) the annual update of the Transmission Revenue Balancing Account Adjustment and the Transmission Access Charge Balancing Account Adjustment; (2) the inclusion in the TO Tariff of rates for transmission service applicable to certain specified existing transmission contracts; (3) the Commission's Opinion No. 458-A in Docket No. ER97-2355-002; and (4) SCE's revised interconnection procedures which were accepted by the Commission's June 4, 2002 order in SCE's Docket Nos. EL00-95-025 and EL00-98-024.

By its Notice issued December 30, 2002, the Commission established January 13, 2003 as the date motions to intervene are to be filed in the above-captioned proceeding.

## **III. BASIS FOR MOTION TO INTERVENE**

The ISO is a non-profit public benefit corporation organized under the laws of the State of California and responsible for the reliable operation of a grid comprising the transmission systems of Pacific Gas & Electric Company, Southern California Edison Company, San Diego Gas & Electric Company and the Cities of Vernon, Anaheim, Azusa, Banning and Riverside, California. As the operator of this grid, the ISO believes that it has a unique interest in any Commission proceeding concerning the issues raised in the captioned proceeding.

#### **IV. CONCLUSION**

For the foregoing reasons, the ISO respectfully requests that the Commission permit it to intervene, and that the ISO be accorded full party status in this proceeding.

Respectfully submitted,
