II. BACKGROUND

As stated in the December 19, 2003 Notice of Filing, on December 12, 2003, the City of Azusa, California ("Azusa") submitted to the Commission changes to its Transmission Revenue Balancing Account Adjustment ("TRBAA") and to Appendix I of its Transmission Owner Tariff ("TO Tariff"). Azusa requested an effective date for its filing of January 1, 2004. Further, on page 2 of the transmittal letter for the December 12 filing, Azusa stated in relevant part as follows:

The calculation of Net FTR Revenue requires a review of Azusa's hourly schedules and transactions by transmission path, which constitutes confidential and commercially sensitive information which, if disclosed to other market participants, would expose Azusa to competitive harm. Azusa is submitting the detailed back-up data supporting the Net FTR Revenue calculation to the Commission on a confidential basis. In *City of Vernon, California*, Docket No. EL02-103-000, the parties proposed and the Commission approved as part of the settlement in that docket a procedure for review and validation of Vernon's Net FTR Revenue calculations. Under that procedure, set forth in § 1.4 of the Offer of Settlement approved by the Commission in its Letter Order dated February 5, 2003, Vernon submits the back-up data for its Net FTR Revenue calculations only to the Commission and to the ISO on a confidential basis. The ISO then compares Vernon's data against its own records to validate the data relied upon by Vernon. If the ISO confirms that Vernon's data are accurate, the detailed back-up information remains confidential and is not disseminated to the other parties. Azusa respectfully requests that the Commission institute the same procedure approved in the Vernon docket for

review and validation of the confidential back-up data for Azusa's Net FTR Revenue calculations.

III. BASIS FOR MOTION TO INTERVENE

The ISO is a non-profit public benefit corporation organized under the laws of the State of California and responsible for the reliable operation of an electricity transmission grid comprising the transmission systems of San Diego Gas & Electric Company, Southern California Edison Company, Pacific Gas and Electric Company, and the Cities of Vernon, Anaheim, Azusa, Banning, and Riverside, California, as well as for the coordination of the competitive electricity market in California. As the operator of the grid, the ISO believes that it has a unique interest in any Commission proceeding concerning the filing described above, which involves the participation of Azusa in the ISO as a Participating TO. Accordingly, the ISO requests that it be permitted to intervene herein with full rights as a party.

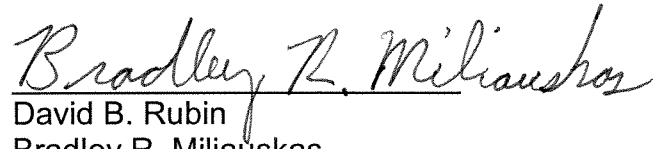

IV. COMMENTS

The ISO appreciates Azusa's providing, for the ISO's review and verification, the confidential information concerning Azusa's Net FTR Revenue as described above. The ISO has reviewed the calculation and cannot at this time agree to the Net FTR Revenue amount. Azusa and the ISO have substantial differences in the calculation. However, they continue to work together to resolve those differences. If Azusa and the ISO can reach agreement, the ISO believes that it can then validate the Net FTR Revenue data.

V. CONCLUSION

Wherefore, for the foregoing reasons, the ISO respectfully requests that the Commission permit it to intervene, and that it be accorded full party status in this proceeding.

Respectfully submitted,
