

CALIFORNIA ISO

**SP**  
**APRIL POSTING**

The following posting is of the Scheduling Protocol of the ISO Tariff (“SP”) as modified by previously posted Amendments that have, except as explained below as regards proposed Amendment No. 7, now been accepted for filing by the Federal Energy Regulatory Commission (“FERC”), in an order issued on March 30, 1998.<sup>1</sup>

This posting is intended to apprise the public of the current terms of the SP following the ISO Tariff Amendment process that commenced in February 1998.

Amendment No. 4, originally filed with FERC on March 3, and docketed as Nos. EC96-19-017 and ER96-1663-018, was accepted by FERC without modification and is therefore incorporated herein in its entirety, to the extent that it amends the SP.

Amendment No. 6, originally filed with FERC on March 23, and docketed as Nos. EC96-19-021 and ER96-1663-022, was

accepted by FERC with modifications and is therefore incorporated herein as so modified, to the extent that it amends the SP.

Amendment No. 6 includes certain temporary measures that will affect SP provisions for a limited period of time. These temporary changes are shown in bold italics, with underlining for temporary additions and strikethrough for temporary deletions.

Proposed Amendment No. 7 was filed with FERC on March 31, 1998 and has, as yet, not been acted upon by FERC. The proposed Amendment No. 7 changes to SP provisions therefore are shown for information only, with underlining for proposed additions and strikethrough for proposed deletions.
