Washington, DC 20426

Re: AD19-16 Commission Information Collection Activities (FERC-922)

**California Independent System Operator Corporation
Common Performance Metrics Data for calendar years 2014 - 2018**

Dear Secretary Bose:

Enclosed please find the submission of data for years 2014 through 2018 from the California Independent System Operator Corporation (CAISO) in response to the notice dated May 27, 2020 issued by the Federal Energy Regulatory Commission for independent system operators (ISOs), regional transmission operators (RTOs), and regions outside ISOs and RTOs to report data on certain performance metrics. Based on its review of the Commission's notice and supporting materials, there are some metrics for which the CAISO either does not have responsive information or collects information in a manner that is not consistent with the metrics. As a result, in some cases the information the CAISO provides for reporting years 2014-2018 varies from that requested in the metrics. The CAISO has identified these variances in its explanatory text included with the data submission. The CAISO has not submitted data in response to the Commission's Group 3 Metrics related to centralized capacity markets.

The CAISO strongly supports measures to provide information about its markets and operations to market participants as well as other stakeholders. The CAISO provides significant transparency regarding its markets and operations through multiple mechanisms, including reports published on its website (www.aiso.com)

Please do not hesitate to contact the undersigned if you have questions about this data submission or the other data the CAISO makes available to stakeholders.

Respectfully submitted,

By: /s/ Andrew Ulmer
