Please use this template to provide your comments on the Metering Rules Enhancements (MRE) stakeholder initiative Revised Draft Final Proposal posted on November 1, 2016.

Submit comments to InitiativeComments@caiso.com

All documents for the MRE initiative are available on the initiative webpage at <http://www.caiso.com/informed/Pages/StakeholderProcesses/MeteringRulesEnhancements.aspx>

Please indicate your organization’s overall level of support for the CAISO’s MRE proposal as reflected in the Revised Draft Final Proposal dated November 1, 2016. To indicate level of support, please select one of the following options: (1) Fully support; (2) Support with qualification; or, (3) Oppose. Also, please provide an explanation of your organization’s position. For example, if you choose (1), then please provide reasons for your support. If you choose (2), then please describe your qualifications or specific modifications that would allow you to fully support the proposal. If you choose (3), then please explain why you oppose the proposal.

PacifiCorp fully supports (1) the Revised Draft Final Proposal of the Metering Rules Enhancement stakeholder initiative. PacifiCorp appreciates the ISO’s effort in educating stakeholders throughout the process. PacifiCorp feels that the final draft proposal does not impose any additional requirements for existing participants who wish to remain at their

current metering standing, but gives them the flexibility to change. In addition, the guidelines that have been established for SCME's and the SQMD plan provide additional options while maintaining the integrity of the revenue metering data. PacifiCorp appreciates the ISO's modifications that will ensure Intrastate points have the ability to come to a common agreement, but enforce ISOME requirements if an agreement cannot be reached.
