Pacific Gas and Electric Company (PG&E) appreciates the opportunity to participate in the annual Transmission Planning Process. PG&E submits these brief comments on the 2011-2012 Conceptual Statewide Plan Update for the 2012-2013 Transmission Planning Cycle and looks forward to continued participation in the TPP.

Comments

PG&E understands the importance of the Conceptual Statewide Transmission Plan as an input into the CAISO's annual Transmission Planning Process. The company supports the CAISO's objective of ensuring that its annual planning process takes into account a broader statewide perspective to ensure that adequate infrastructure is approved throughout the state to meet California's goal of 33 percent renewable energy by 2020.

PG&E supports the conclusions of the report, and looks forward to working with the CAISO and other stakeholders as the state's resource portfolios change over time and the conceptual statewide plan requires reassessment.
