Board of Governors  
California Independent System Operator  
P.O. Box 639014  
Folsom, CA 95763-9014

Dear Chairman Foster and Board of Governors:

NV Energy is pleased to support the next step in the implementation of the California Independent System Operator's (ISO) Energy Imbalance Market (EIM), with your approval of the EIM Transitional Committee charter. As stated during public comment at your November Board meeting, NV Energy has been evaluating the EIM with ISO management and has determined that there may be benefits to NV Energy's customers of joining the EIM.

ISO management's EIM governance proposal and Transitional Committee structure marks an important step to include regional stakeholders in the development of an independent EIM governance structure. By seating a set of knowledgeable and credible industry leaders, the ISO Board can receive thoughtful recommendations on a decision making process to allow for the greatest chance of success of the EIM.

NV Energy supports the Board's decision to approve the EIM Transitional Committee charter and NV Energy looks forward to engaging in the next steps toward successful implementation.

Sincerely,

A handwritten signature in blue ink that reads "Roberto R. Denis".
