**JOINT STATUS REPORT OF THE CALIFORNIA INDEPENDENT
SYSTEM OPERATOR CORPORATION AND
PUGET SOUND ENERGY CONCERNING REFUND DATA DISPUTES**

Pursuant to Paragraph 30 of the “Order Addressing Refund Process Disputes and Providing Guidance,” 116 FERC ¶ 61,167 (2006), issued by the Federal Energy Regulatory Commission (“Commission”) on August 23, 2006 in the above-captioned dockets (“August 23 Order”), the California Independent System Operator Corporation (“ISO”) and Puget Sound Energy (“Puget”) hereby provide their first joint status report detailing efforts to resolve Puget’s concerns with respect to data distributed by the ISO to parties in this proceeding.

I. BACKGROUND

In an order issued on August 8, 2005, 112 FERC ¶ 61,176 (2005), the Commission concluded that in order to expedite the resolution of the refund proceeding, market participants would be required to submit to the Commission, by December 1,

2005, any disputes with refund reruns, cost offsets, FCA claims, and emissions costs offset claims. On December 1, 2005, Puget filed with the Commission a "Notice of Rerun Discrepancies and Reservation of Rights." Therein, Puget stated that recent refund rerun data disks from the ISO had failed to reflect the resolution of disputes between Puget and the ISO from the preparatory rerun phase. Puget stated that it had not been able to correct or challenge these errors, and thus filed its dispute in order to put the Commission on notice and to reserve the right to challenge a compliance filing by the ISO. In response to Puget's filing, the ISO requested that the Commission defer action on Puget's issues pending further discussions between Puget and the ISO on the data discrepancies.

In the August 23 Order, the Commission agreed to defer action on Puget's dispute. However, the Commission directed the ISO and Puget, within 15 days of the date of the issuance of the August 23 Order and every 15 days thereafter, to submit a report detailing the progress made regarding Puget's data concerns and informing the Commission of any further data issues. The Commission also stated that if this dispute is not resolved by the time of the third progress report, both parties will be required to file their final positions on any remaining data issues raised by Puget in its initial dispute filing no later than five days after the date of submission of the last progress report.

II. STATUS REPORT

The ISO settlements staff has examined the data disputes identified by Puget, and, on September 5, 2006, provided responses via email to Puget relating to three of the six issues identified by Puget. Puget's consultants are currently reviewing those responses. The ISO expects to provide responses on the remaining three issues within

the next several days. Counsel for the ISO and Puget have been in frequent communications over the past several days, and are committed to taking whatever additional steps are necessary in order to resolve these issues as quickly as possible without the need for further Commission intervention.

III. CONCLUSION

The ISO and Puget respectfully request that the Commission accept this status report in compliance with the Commission's August 23 Order.

Respectfully submitted,

Michael Kunselman / RL
