

# The Future of Transportation

Philipp Skogstad  
CEO I Mercedes-Benz Research & Development North America

Mercedes-Benz  
The best or nothing.

Electricity  
changed  
people's lives

...

... so will the  
next mobility  
revolution.

# E-Mobility in Numbers

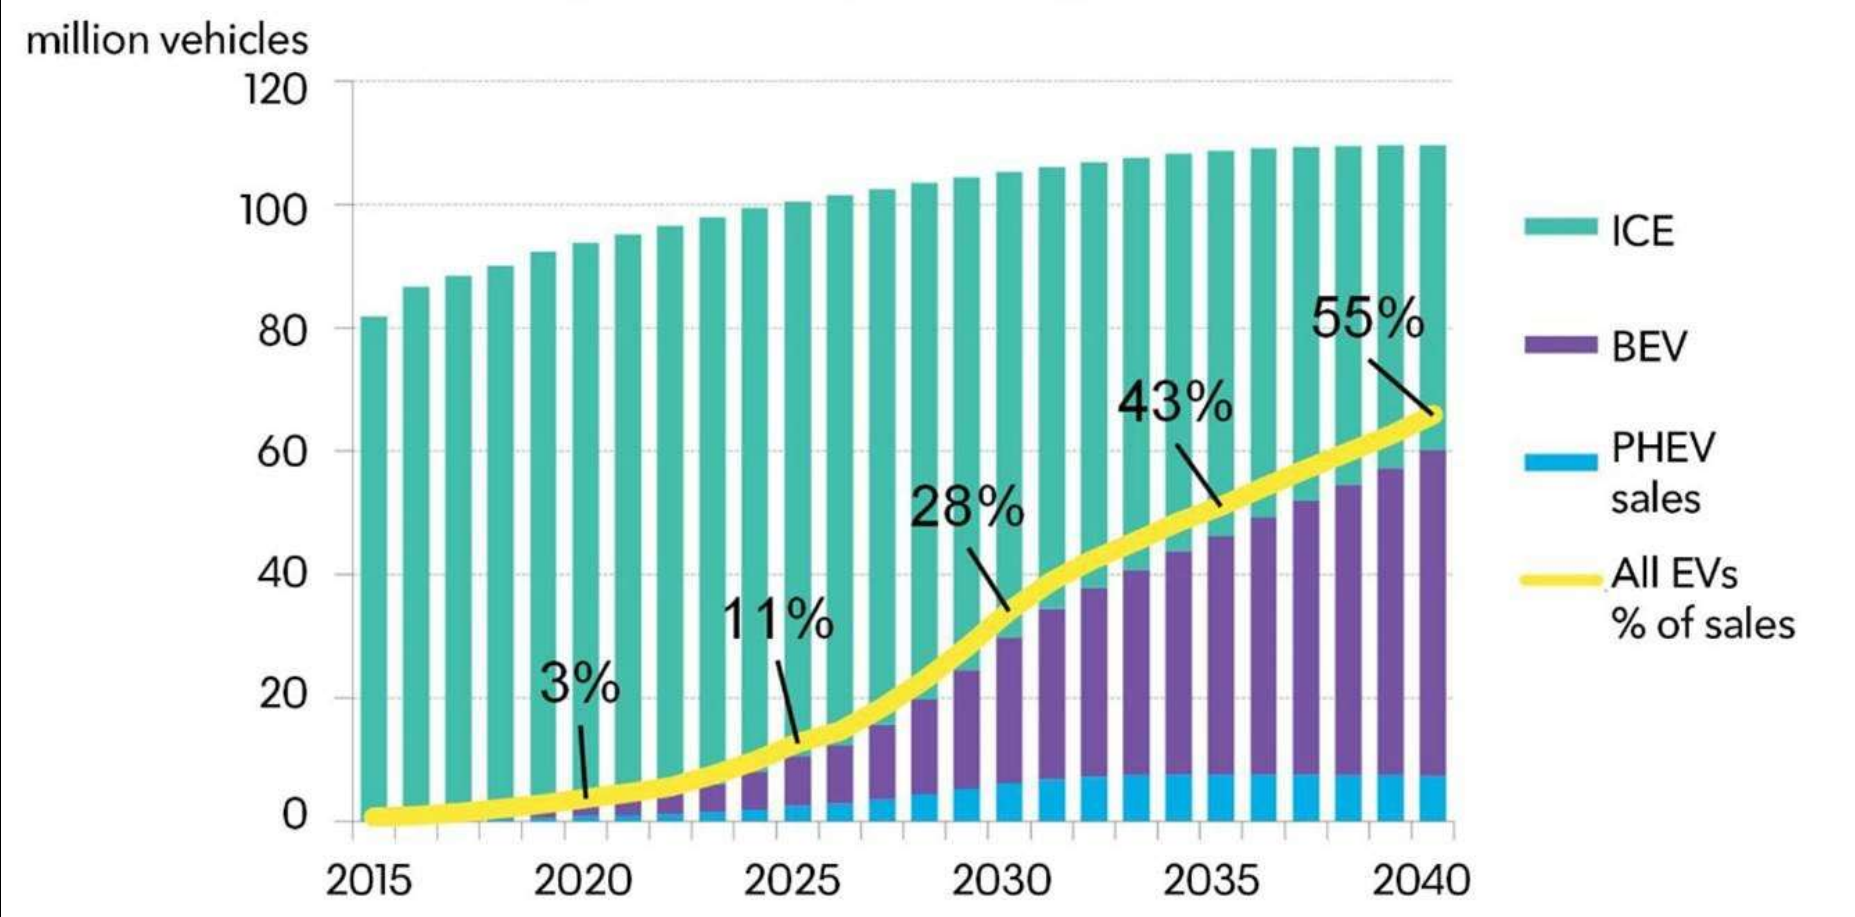

A close-up photograph of a person's hands plugging a black charging cable into the charging port of a white electric vehicle. The charging port is illuminated with a green light. The background is a blurred green landscape.

Over a million EVs sold last year

4x by 2020 | 4.5 million EVs

5% of the overall global light-vehicle market
