Western Energy Imbalance Market – Benefits and market update

Guillermo Bautista Alderete

ISO Board of Governors meeting
General Session
March 23, 2023
$485.29 million gross economic benefits in Q4 2022

Gross economic benefits driven by:

- Participation of additional EIM entities
- Higher energy prices due in part to higher gas prices
- Economic transfers among areas
$3.4 billion in cumulative benefits through December 2022
WEIM helps reduce curtailments of renewable resources

Avoided curtailments since 2015 represent a reduction of 792,061 equivalent Tons CO₂
Robust volume of WEIM transfers among areas in Q4

* The smallest volumes of transfers are not depicted for clarity in the illustration.
On average net WEIM transfers in Q4 track solar production
Higher prices observed in December due in part to high gas prices

Bilateral prices for Mid-C tracked closely to WEIM prices
