

Memorandum

To: ISO Board of Governors
From: Jim Detmers, Vice President of Operations
Date: September 2, 2009
Re: *Operations Report*

This memorandum does not require Board action.

EXECUTIVE SUMMARY

Grid Operations Highlights:

We continue to see moderate load during the summer with good performance from the generation and imports. The fire season has started with numerous wildfires being monitored and actions ready to implement if the fires threaten generation facilities or the transmission or distribution systems. Operations maintains close monitoring of all wildfires and their progress.

Operations Highlights:

The attached report provides performance and trend information in areas of operation performance relative to ISO goals and notable settlement and dispute activities.

This month's report is our first opportunity to begin trending new areas in our market that now have processed completely through the bid-to-bill process. This specifically refers to residual unit commitment compliance and the trending of closed disputes.
