Re: **Informational Report on BPM Change Management Activities**

This memorandum does not require Board action.

EXECUTIVE SUMMARY

This memorandum is a regular report required by the Federal Energy Regulatory Commission to inform the ISO Board of Governors on the status of the business practice manual change requests submitted by stakeholders and the California Independent System Operator Corporation.

The ISO inaugurated the public change management process for business practice manuals (BPMs) on April 1, 2009. Both the ISO and stakeholders use the same electronic system and process to submit and track proposed changes to the BPMs. The process includes stakeholder review, ISO approval or rejection, and a possible appeal to the BPM Appeals Committee, which is comprised of three ISO officers.

As of August 1, 2011, 18 proposed revision requests (PRRs) were active in the BPM change management system, of which, all 18 were submitted by the ISO. These 18 active PRRs impact the following BPMs:

- 3 Market Operations
- 1 Market Instruments
- 4 Metering (includes one PRR for the new Direct Telemetry BPM)
- 3 Reliability Requirements
- 4 Settlements and Billing
- 2 Transmission Planning Process (includes one PRR for the new Generator Interconnection Process BPM)
- 1 Outage Management

No BPM decisions are under stakeholder appeal.

PROCESS OVERVIEW

The ISO held monthly BPM change management stakeholder meetings on June 28 and July 26, 2011. There were 13 and 21 stakeholders on the conference calls, respectively. Based on the nature of the meetings, and upon the types of comments entered into the BPM change management electronic system, it appears that stakeholders are generally satisfied with the process, as well as with the progress made on the active PRRs.

BPM CHANGE MANAGEMENT REPORT

The current *Board Update: BPM Change Management Process* report, which includes all the active PRRs as of August 1, 2011, is included as Attachment 1. In compliance with the tariff reporting requirements, the report:
