

## ITP Project Submittal Information (2022-2023 Regional Planning Cycles)

To be considered for joint evaluation coordination, a proponent of an Interregional Transmission Project (ITP) must submit its project to each Relevant Planning Region no later than March 31 of an even-numbered calendar year and in accordance with the project submittal requirements of each Relevant Planning Region. However, the regions would benefit from projects being submitted in January or early February in order to share the information at the Annual Interregional Coordination Meeting. The following matrix is intended to provide guidance regarding the project submittal process for each of the Western Planning Regions. Questions regarding a Region’s project submittal process should be directed to the Region’s contact identified in the matrix.

	California ISO	NorthernGrid	WestConnect
<b>Project Submittal Window</b>	January 1, 2022 through March 31, 2022	For consideration in the NorthernGrid planning process, both regional and interregional projects may be submitted during the first quarter of any even-numbered calendar.	A project submittal window will open following the Needs Identification phase of the planning cycle (i.e. in approximately Q1 of 2023). However, project submittals will be accepted at any time through the conclusion of the submittal window.
<b>ITP Project Submittal Deadline</b>	March 31, 2022	March 31, 2022	March 31, 2022
