 California ISO	Operating Procedure Attachment	Procedure No. 4410D
		Version No. 4.1
		Effective Date 3/18/2021
Emergency Assistance Resource IDs		Distribution Restriction: None

The following assists in determining pre-assigned Interchange market Resource IDs for use in conjunction with CAISO Operating Procedure [4410 Emergency Assistance](#), in the event that emergency assistance (Energy or Capacity) is requested from, or provided to, adjacent BAs. These emergency assistance Resource IDs associated with the respective BA's SC have been placed in the Master File.

The tie points that have been selected for emergency assistance have been determined as a result of prior emergency events.

The corresponding CAISO E-Tag should include the following in the Misc. Info. Field of the Physical Path:

Token	Value																																																			
CAISO_CONTRACT	NONE																																																			
CAISO_PRODUCT	ENGY
