1. Procedure Detail

1.1. Purpose and Distribution

The California ISO (CAISO) sends Emergency notices when adverse grid or market conditions require activation of the CAISO Electrical Emergency Plan, which is implemented through CAISO’s Emergency procedures. Notices are targeted to control centers and communications departments of Participating Transmission Owners, Utility Distribution Companies, Metered Subsystems, Scheduling Coordinators as well as state, federal, regulatory and oversight agencies. Not all Emergency notices are necessarily sent to all recipients, but rather to the stakeholders for each notice identified by the CAISO. Subsequent re-transmissions of these notices by media, public safety agencies, and others extend the audience to a much wider range of recipients than those specified above.

 California ISO	Operating Procedure	Procedure No.	4420C
		Version No.	11.1
		Effective Date	11/01/24
Emergency Notice Templates		Distribution Restriction: None	

Emergency notices may be issued on a California ISO Grid or Regional (Northern or Southern California) basis. In addition to the standardized text in the following pages, CAISO Operators can elect to provide additional details and descriptions specific to the event.

1.1.1. Advisories, NOT Dispatch Instructions

Emergency notices do not serve as, nor should they be mistaken for, Operating Instructions issued by the CAISO. They are advisories only and Operating Instructions relative to system emergencies will be issued through established modes.

1.1.2. Disclaimer

Emergency notices are based on current conditions of the transmission grid system. While an Emergency notice reflects the most current information available to the CAISO at the time of issuance, transmission grid system conditions are subject to sudden and rapid change without warning and the accuracy of any notice cannot be assured. These CAISO notices are provided solely for informational purposes. Reliance by any party on the contents of these CAISO notices, regardless of any errors, omissions, inaccuracies, and/or subsequent changed conditions shall not be made the basis for any claim, demand, or cause for action against the CAISO. Any recipient's decisions or actions that may be based in any way whatsoever on the contents of these CAISO notices shall be the sole responsibility of the recipient.

1.2. Emergency Notices

Terminology:

- Initiation: Issue a new event and event message. This event will either immediately be in effect or will be issued to be in effect at a future time or date.
- Update: Update an event (e.g., start time, end time, reason text).
- End: Formally end an event.
- Cancellation: Cancel an event before it takes place.

1.2.9. EEA 2

1.2.9.1. Issue

Regions: CAISO Grid, Northern CA Region, Southern CA Region, VEA Region, or South OC San Diego Region
Subject: EEA 2 declared for @Region, effective @StartDateTime - @EndDateTime
Header: EEA 2 declared for @Region, effective @StartDateTime - @EndDateTime - @EventId Notice No: @MessageId
Message: An Energy Emergency Alert (EEA) 2 has been declared for the California ISO for @Region, effective @StartDateTime through @EndDateTime. Reason: For more information as it becomes available, monitor the System Conditions Bulletin on the caiso.com News page. The CAISO Balancing Authority is no longer able to provide its expected energy requirements and is an energy-deficient balancing authority. CAISO has implemented its operating plan to mitigate emergencies and is still able to maintain minimum contingency reserve requirements. Conservation efforts are urged during this time, and entities are encouraged to offer available energy and ancillary service bids. During this time, participating customers may be directed by utilities to use generators that are approved for emergencies, or to reduce load according to the protocols of each utility's program. To preserve grid reliability, the CAISO dispatch of emergency demand response programs may be necessary during this time. CAISO requests utility distribution companies and metered subsystems to voluntarily reduce electricity use.

<p>Header: UPDATE: EEA 3 - Ordering rotating power outages for @Region, effective @StartDateTime - @EndDateTime - @EventId Notice No: @MessageId</p>
<p>Message: Update: As of @IssueDate the California ISO has requested [[Number/Value]] megawatts (MW) of firm load curtailments from its utility distribution companies and metered subsystems.</p> <p>To the extent practical, a portion of the total MW has been allocated to each utility on a pro-rata basis, and the utilities shall use their electrical emergency plans to determine which customers are impacted.</p> <p>The CAISO will issue a notification when firm load curtailments are no longer needed.</p>
<p>Footer: For more information, view the Emergency Notifications fact sheet (http://www.aiso.com/Documents/Emergency-Notifications-Fact-Sheet.pdf).</p> <p>Monitor system conditions on Today's Outlook (http://www.aiso.com/TodaysOutlook/Pages/default.aspx) and contact local electric utilities for details about their respective load reduction programs.</p> <p>For grid condition developments, follow us on social media: @California_ISO.</p> <p>Notice issued at: @IssueDate</p>

 California ISO	Operating Procedure	Procedure No.	4420C
		Version No.	11.1
		Effective Date	11/01/24
Emergency Notice Templates		Distribution Restriction: None	

Version	Change	Date
9.0	Annual Review: Updating messaging; changed order of alerts to be consistent with 4420, 4420B, Flex Alert, RMO, Transmission Emergency, Alert, Warning, etc. Updated instances of ISO to CAISO. Updated energy emergency language for warning, stages 1, 2, and 3. Added Table of Contents.	6/15/21
9.1	AWE messages modified to add references and actions related to demand response and the California State Emergency Program (CSEP).	8/20/21
10.0	Annual Review/Major Update: Sections 1.2.8 through 1.2.12 and 1.3.8 through 1.3.12 - converted AWE notices to EEA notices – removing Grid Alert, Warning, Stage 1, Stage 2 and Stage 3, and adding EEA Watch, EEA 1, EEA 2 and EEA 3. Removed 1-hour probability notice. Updated procedure title by removing “System.”	5/01/22
10.1	Annual Review: Minor edit to Section 1.2.8. Updates to multiple message templates for 2023 summer (Sections 1.2.8, 1.2.9, 1.2.10, 1.2.11, 1.3.8, 1.3.9, 1.3.10, 1.3.11, and 1.3.12). Updated fact sheet URL reference throughout.	6/22/23
11.0	Major Update: Reflects new ONS templates and adds new terminology. Removed history prior to five years.	11/01/23
11.1	Annual Review: Minor punctuation edits only, no other content changes.	11/01/24
