Technical User Group Agenda

Nov 29th, 2016   *10:00 a.m. – 11:00 a.m. (Pacific Time)*

Web Conference Information		Conference Call Information	
URL:	https://www.connectmeeting.att.com	Domestic Call In:	(866) 528-2256
Meeting Number:	8665282256	International Call In:	(216) 706-7052
Access Code:	6085978	Pass Code:	6085978

Time	Topic	Facilitator
10:00 – 10:05	Agenda & ISO Roll call	Sean Crimmins
10:05 – 10:20	Acceptable Use Enforcement: OMS, BSAP, SIBR, BAAOP	John Huetter
10:20 – 10:30	Disabling TLS 1.0	Tom Williams
10:30 – 10:50	OASIS Group zip API Alternative	Sean Crimmins
10:50 - 10:55	Adjourn	Sean Crimmins
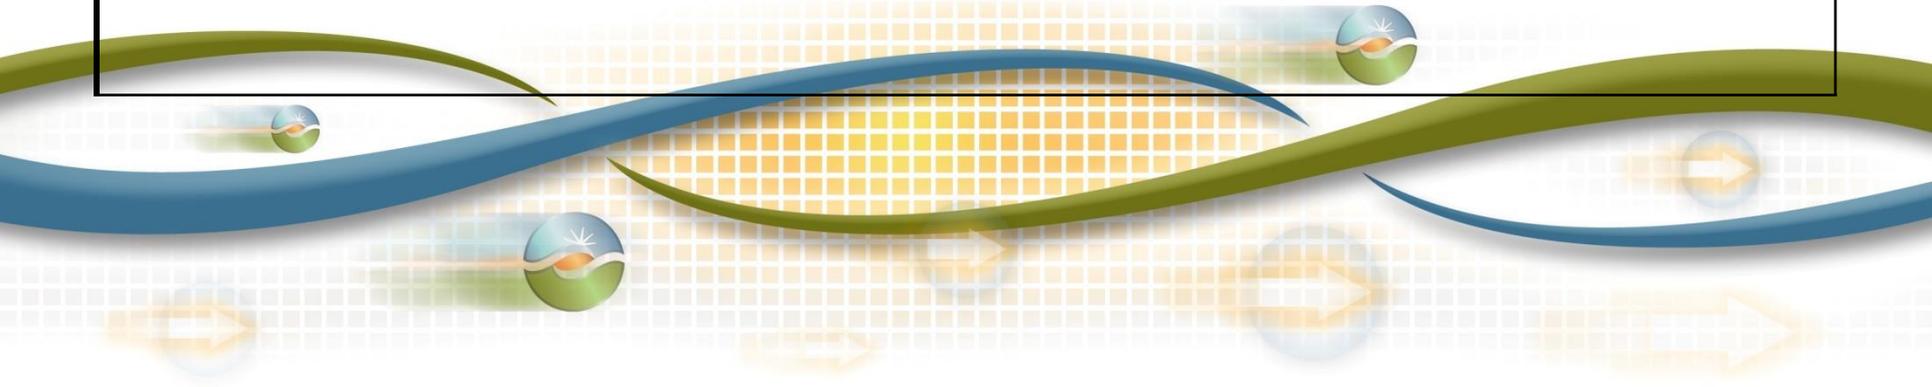

AUP – OMS & BSAP, SIBR, BAAOP

- MAPStage is supported during business hours, M-F

- Sometimes participants are testing API's on their side which floods CAISO systems, thus preventing other users from accessing

- Logs can fill up, causing disk space issues

- Will use same AUP criteria as CMRI

AUP – BSAP, SIBR & OMS

- OMS we will enable in MAPStage this week
- SIBR, BSAP, and BAAOP will be in "Logging Only" Mode

AUP – SIBR & OMS in MAPStage

- ## Questions???

  - Please create CIDI tickets for tracking purposes
  - You may call the CAISO Help Desk @ 916-351-2309
  - You may reach John Huetter, Systems Integration @ 916-608-5839

For all support tickets, please provide (the more information, the quicker we can resolve):

  - CAISO URL you attempted
  - Error Message, Error Code, Screenshot
  - Time of transaction, please include seconds if possible
  - Certificate Used
  - Source IP (If available)

California ISO

Retiring the TLS 1.0 Protocol

The ISO will be disabling version 1.0 of TLS (Transport Layer Security) for ISO Market applications.

TLS version 1.0 is no longer considered secure.

In 2014, the ISO enacted a similar process to disable version 3.0 of SSL (Secure Sockets Layer).

Participants will need to enable TLS 1.1 and 1.2 in browsers and APIs.

Participants do not need to disable TLS 1.0 because the TLS handshake will negotiate the highest mutually available version.

California ISO

OASIS Group Zip Alternative API

Background

As part of a Business Continuity Plan the ISO will implement a Cloud based solution for

OASIS Group Zip Files. The ISO would like to take this opportunity to present a simplified version of the group zip API.

Group zip files will be requested explicitly without the use of parameters

Current Example

GET /oasisapi/GroupZip?groupid=DAM_LMP_GRP&startdatetime=20170625T08:00-0000&resultformat=6&version=1

Alternative

GET /oasisapi/GroupZip/20170625_20170625_DAM_LMP_GRP_N_N_v1_csv

Feedback?

Wrap-up

Please send agenda items to scrimmins@caiso.com
