VIII. OTHER FEC. MATTERS IN WHICH THE ISO IS PARTICIPATING

IX. RULEMAKING

I. SUMMARY OF RECENT DECISIONS

- Order issued March 6, 2001 (94 FERC ¶ 61,237), the Commission grants in part rehearing on its ICAP order. FERC finds that the ICAP deficiency charge shall be \$0.17/kW-month from August 1, 2000 until April 1, 2001 and \$8.75/kW-month thereafter.
- Order issued March 8, 2001 (94 FERC ¶ 61,239), the Commission announces that comments in response to notices of proposed rulemakings and motions to intervene may be filed electronically.
- Order issued March 9, 2001 (94 FERC ¶ 61,243), the Commission dismisses PX request for rehearing of the January 8, 2001 Order.
- Order issued March 9, 2001 (94 FERC ¶ 61,245) directing sellers to provide refunds in excess amounts charged for certain electric energy sales in the ISO and PX markets for January 2001 or alternatively to provide further cost justification. FERC limited the possibility of refunds to bids above a \$273/MWh screen price that occurred during Stage 3 conditions.
- Order issued March 9, 2001 (94 FERC ¶ 61,248), the Commission denied the PX rehearing request of the December 15, 2000 filing.
- Order issued March 14, 2001 (94 FERC ¶ 61,251) the Commission rules on petitions for declaratory order and supplemental rate applications involving PJM, New York State Electric and Gas Corporation and several other dockets. In its order, the Commission found that a generator may net its station power requirements against the generating facility's gross output whenever the generating facility's gross output exceeds or equals its station power requirements. When a generating facility's station power requirements exceed its output, such as during an outage, the sale is generally a sale to an end use customer not subject to FERC's jurisdiction.
- Order issued March 14, 2001 (94 FERC ¶ 61,265), the Commission accepts Amendment No. 37.
- Order issued March 14, 2001 (94 FERC ¶ 61,266), FERC conditionally accepted Amendment No. 35. FERC "accept[ed] the ISO's Tariff modifications to permit small distributed generation to participate in the ISO's markets." " In order for a generator to participate in the ISO's markets, a generator needed to provide telemetry and direct control equipment such that the ISO could direct the operation of the generator as necessary to maintain the reliability of the grid...It is reasonable to extend this requirement." FERC found that Grid Service's "argument that the Commission does not have jurisdiction to address distributed generation are without merit. Sales for resale by a distributed generator and the transmission of electric energy in interstate commerce (including unbundled retail transmission) are subject to the Commission's jurisdiction." FERC also accepted the changes to implement the WSCC reliability criteria, annual charges, meter data submission deadline, the neutrality cap, and no pay exemption for load. With respect to the proposed RMR pre-dispatch change, the Commission found that the proposal to permit mixed elections within the same hour needlessly adds complexity to the RMR settlement process and is rejected.

- Order issued March 14, 2001 (94 FERC 61,268), the Commission dismisses in part and grants in part Complaint by Cities of Anaheim, Azusa, and Banning regarding recovery of OOM costs through the neutrality adjustment. The Commission found that the issue of OOM allocation was resolved by Amendment No. 33. However, FERC found that the ISO exceeded the Tariff's neutrality adjustment charge limit of \$0.096/MWh.
- Order issued March 14, 2001 (94 FERC ¶ 61,271), the Commission denies Southern Company's request for a declaratory order regarding RTO status.
- Order issued March 14, 2001 (94 FERC ¶ 61,273), the Commission provisionally grants RTO status to GridSouth.
- Show cause order issued March 14 in Docket No. IN01-3-000 (94 FERC ¶ 61,248). The Commission directed Williams Energy Market and Trading and AES Southland, Inc. to explain why they should not be found to have violated the terms of their RMR contract and the ISO Tariff by making an RMR unit unavailable for dispatch.
- Order issued March 14, 2001 in Docket No. EL01-47-000. The Commission announced certain actions it is taking to help increase electric generation supply and delivery in the Western United States. ISO must propose list of transmission upgrades that can be completed by this summer.
- Order issued March 15, 2001 (94 FERC ¶ 61,283), the Commission accepts PJMs proposed changes to schedule for conducting feasibility and impact studies in response to requests for generation interconnections. PJM found the current 30-day deadline is not workable and changed it to a biannual basis.
- Order issued March 15, 2001 (94 FERC ¶ 61,289) denies rehearing of Order No. 642 (65 Fed. Reg. 70984, November 28, 2000), a final rule updating the filing requirements for applications filed under Part 33 of the Commission's regulations, including public utility mergers, but grants clarification on certain issues.
- Order issued March 15, 2001 (94 FERC ¶ 61,290), the Commission issues an order on rehearing of its Annual Charge rule. With regard to the ISO's request for clarification that there is a need to collect these charges even if there is uncertainty as to what the actual amounts will be eventually, the Commission reiterated that these costs can be recovered as an element of transmission rates and that its regulations provided "great flexibility" as to the manner of recovery.
- Order issued March 16, 2001 (94 FERC ¶ 61,307), the Commission denied the rehearing requests of several California governmental entities of a 1998 opinion on the South of Tesla Principles. The Commission reaffirmed its determination that the principles did not permit member-to-member transactions and to adopt PG&E's uniform scheduling practices "to achieve maximum use of its transmission system and to minimize curtailments."
- Order issued March 16, 2001 (94 FERC ¶ 61,306) the Commission dismissed the CPUC's rehearing request that FERC was wrong to measure PG&E's proposed TO3 rates against the currently effective TO2 rates rather than the TO2 settlement rates for purposes of determining whether suspension was appropriate.

- Order issued March 16, 2001 (94 FERC ¶ 61,245) directing sellers to provide refunds in excess amounts charged for certain electric energy sales in the ISO and PX markets for February 2001 or alternatively to provide further cost justification. FERC limited the possibility of refunds to bids above a \$430/MWh screen price that occurred during Stage 3 conditions.
- Order issued March 19, 2001 (94 FERC ¶ 61,318), the Commission denies requests for clarification of BPA and Sierra Pacific concerning the Commission order issued January 11, 2001 (94 FERC ¶ 61,033), which dismissed as moot a request for rehearing filed by Sierra Pacific of the February 26, 1999 order accepting for filing, suspending, and setting for hearing agreements related to the Northwest AC Intertie, the COI, and the Alturas Intertie (86 FERC ¶ 61,198).
- Order issued March 28, 2001 (94 FERC ¶ 61,344) accepting Vernon's compliance filing regarding its TRR, and rejecting Vernon's compliance filing regarding its TO Tariff, both of which were submitted to comply with the Commission's October 27, 2000 order (93 FERC ¶ 61,103).
- Order issued March 28, 2001 (94 FERC ¶ 61,363), the Commission provisionally grants RTO status to GridFlorida LLC.
- Order issued March 28, 2001 (94 FERC ¶ 61,359), the Commission issues an order addressing issues related to the Southwest Power Pool's RTO filing.
- Order issued March 28, 2001 (94 FERC ¶ 61,343), the Commission grants the ISO's rehearing request and finds that entities such as DWR must have a TRR and TRBA in place, and denies and dismisses other requests for rehearing with regard to Docket Nos. ER98-3954 and ER00-1239.
- Order issued March 29, 2001 (94 FERC ¶ 61,384), the Commission grants Otay Mesa's request pursuant to Sections 211 and 212 to order SDG&E to provide transmission service.
- Order issued March 29, 2001 (94 FERC ¶ 61,371), the Commission orders that NYISO's proposed locational pricing tariff sheets for operating reserves will become effective upon the expiration of the suspension period, subject to NYISO's refiling the tariff sheets to include the language implementing the proposed locational pricing system.
- Order issued March 30, 2001 (94 FERC ¶ 61,406), based on stay by the First Circuit, FERC states that the charge of \$0.17/kW-month shall remain the ICAP deficiency charge for ISO New England.
- Order issued April 2, 2001 (95 FERC ¶ 61,003), the Commission grants the request of PG&E, SCE, and SDG&E to disclaim jurisdiction over their sales of electricity to apartment buildings, mobile home parks, and other similar residential and recreational complexes that submeter electricity to their tenants.
- Order issued April 2, 2001 (95 FERC ¶ 61,008), the Commission denies requests for rehearing of the Commission order issued January 14, 2000 (90 FERC ¶ 61,045), which concerned the conditional acceptance of proposed revisions to NYISO's OATT and the NYISO Services Tariff, but grants clarification on one issue.

- Order issued April 2, 2001 (95 FERC ¶ 61,010), the Commission grants in part and denies in part requests for rehearing and clarification concerning the November 8, 2000 order in which the Commission ruled on the proposed revision to the method used to calculate lost opportunity cost payments (93 FERC ¶ 61,142).
- Order issued April 6, 2001 (95 FERC ¶ 61,020), the Commission directs the PX to rescind all prior chargeback actions and refrain from any future chargeback actions as related to PG&E's and SCE's liabilities, subject to the Commission's further action as described in the order, and dismisses as moot complaints filed by PG&E and SCE regarding the PX's intended liquidation of those entities' block forward contracts.
- Order issued April 6, 2001 (95 FERC ¶ 61,021), the Commission dismisses the request of the PX for rehearing of the Commission's order issued January 29, 2001 (94 FERC ¶ 61,085), accepts for filing the submission made by the PX in compliance with the January 29 order, and provides guidance to the PX as to the implementation of the \$150/MWh breakpoint methodology for the PX's January 2001 invoices.
- Order issued April 6, 2001 (95 FERC ¶ 61,024), the Commission grants the PX's request for clarification that it suspended rather than closed its Day-Ahead and Day-Of energy markets, denies the PX's request for rehearing and clarification that its relaxation of creditworthiness standards for the period January 5 through January 18, 2001 was reasonable, and requires to include in its invoices for January 2001 all amounts owed to third-party suppliers by the UDCs.
- Order issued April 6, 2001 (95 FERC ¶ 61,025), the Commission defers action on the request of PG&E and SCE to suspend the penalty for underscheduled load, and requires the ISO to file a report with input from PG&E, SCE, and others on monthly projections of underscheduled load.
- Order issued April 6, 2001 (95 FERC ¶ 61,026), the Commission issues an order stating that its February 14, 2001 creditworthiness order (94 FERC ¶ 61,132) required the ISO to obtain creditworthy backing for all transactions not just all schedules.
- Chief Administrative Law Judge's Certification of Settlement issued April 6, 2001 (95 FERC ¶ 63,003), Chief Judge Wagner finds that the proposed Settlement Agreement involving the Midwest ISO, Certain Transmission Owners in the Midwest ISO, the Alliance Companies, and other parties, filed March 21, 2001, as to an agreed-upon RTO structure, agreements, and rates, is reasonable and in the public interest, and recommends that it be approved by the Commission.
- Order issued April 11, 2001 (95 FERC ¶ 61,035), the Commission rejects proposed PJM's proposed waiver of the requirement that PJM retain an independent consultant to identify potential candidates for available seats on PJM's Board of Managers.
- Order issued April 12, 2001 (95 FERC ¶ 61,037), the Commission denies the requests for rehearing of Cities/M-S-R, MWD, MID, and TANC concerning the Commission order conditionally accepting Amendment No. 28 (91 FERC ¶ 61,256), but grants requests for clarification concerning the Amendment No. 28 order.

- Order issued April 13, 2001 (95 FERC ¶ 61,069), the Commission accepts for filing NEPOOL's proposed revisions to Market Rule 5, effective as of April 15, 2001.
- Order issued April 13, 2001 (95 FERC ¶ 61,074), the Commission denies requests for rehearing of the Commission's April 20, 1998 order approving (with modifications) NEPOOL's comprehensive restructuring proposal (83 FERC ¶ 61,045), and of the Commission's December 17, 1998 order conditionally accepting NEPOOL's proposed market rules and request for market-based rates (85 FERC ¶ 61,379).
- Notice issued April 16, 2001 in Docket Nos. EL00-95-028, et al., the Commission announces the proxy price for March 2001 wholesale transactions in the California wholesale electric market.
- Order issued April 26, 2001 (95 FERC ¶ 61,114), the Commission grants, on a preliminary basis and with modifications, the RTO West Applicants' request for a declaratory order and the TransConnect Applicants' request for a declaratory order concerning the proposed RTO West.
- Order issued April 26, 2001 (95 FERC ¶ 61,121), the Commission grants NYISO's motion for permission to implement the proposed hybrid fixed block generation pricing rule as of May 1, 2001, dismisses as moot requests for rehearing challenging the ruling in the July 26, 2000 Commission order in regard to the fixed block generation pricing rule (92 FERC ¶ 61,073), and accepting NYISO's Preliminary Compliance Report Concerning Pro Rata Curtailment Procedures and Fixed Block Generation Pricing.
- Order issued April 26, 2001 (95 FERC ¶ 61,123), the Commission accepts the market rule changes submitted by NEPOOL to implement three-part bidding for energy and net commitment period compensation within NEPOOL's existing single-settlement market system, and leaves in place NEPOOL's currently effective methodology for allocating uplift costs.
- Order issued April 26, 2001 (95 FERC ¶ 61,125), the Commission accepts ISO-NE's proposed changes to Market Rule 17, Market Monitoring, Reporting and Market Power Mitigation and supplemental compliance filing with further clarifications to proposed changes.
- Order issued April 26, 2001 (95 FERC ¶ 61,115), the Commission establishes a prospective mitigation and monitoring plan for the California wholesale electric markets, establishes an investigation of public utility rates in the wholesale Western energy markets, and requires the ISO to submit complying tariff changes within 15 days of the issuance of the order. The Commission's plan provides for: (1) increased authority for the ISO to coordinate and control Outages of certain Generating Units; (2) a requirement that sellers with Participating Generator Agreements as well as non-public utility sellers within California that utilize the ISO-controlled grid offer all their available power in real time; (3) the establishment by public utility load serving entities of response mechanisms in which they would identify a price at which load should be curtailed during all hours; (4) the use of a single MCP auction for the ISO Imbalance Energy Market; and (5) mitigation of ISO Imbalance Energy Market prices during periods in which the ISO is experience a reserve deficiency. The April 26 Order also imposes general conditions on public utility sellers' market based rate authority by prohibiting certain anomalous bidding strategies and reporting requirements.

- Order issued April 27, 2001 (95 FERC ¶ 61,136) accepting NYISO tariff revisions regarding an Emergency Demand Response Program.
- Order issued April 27, 2001 (95 FERC ¶ 61,131), FERC issues order denying rehearing and clarifying prior order remating to Consumers' interconnection procedures.
- Order issued April 30, 2001 (95 FERC ¶ 61,159), the Commission denies the request for rehearing of El Segundo Power of the Commission order issued April 27, 2000 (91 FERC ¶ 61,110), in which the Commission rejected El Segundo's proposed Non-Market Dispatch Service Tariff.
- Letter order issued May 1, 2001, FEC. accepts TCA compliance filing in ER01-724-001.

The ISO, the Participating TOs, the CPUC, and the EOB, and the FERC Staff took the position that the RMR Owners should receive a "Fixed Option Payment" ("FOP") equivalent to the incremental costs attributable to RMR service (which included any amount by which going forward costs exceeded market revenues), net of any incremental revenues attributable to RMR service. These parties (except the CPUC) also advocated an additional incentive payment. The CPUC opposed an incentive payment. Southern Parties asserted entitlement to a percentage of total fixed costs (including sunk costs) based on (1) the hours that the units must be available to the ISO as a percentage of total available hours and (2) the hours that the ISO has called upon the unit as a percentage of total operating hours. The Presiding Judge concluded that because RMR obligations are simply contractual mechanisms enabling generators with potential local market power to participate in competitive markets, compensation for RMR unit availability should neither unnecessarily advantage nor unnecessarily disadvantage RMR unit participation. He found that the net incremental cost compensation proposal achieved these objectives and does not deprive the RMR owner of any significant opportunity to participate in the competitive markets or to maximize the financial rewards. The Presiding Judge also found that none of the proposed incentive payments was appropriate.</p>	<p>Before Judge Young</p>

V. SUMMARY OF MATTERS ON REHEARING & APPEAL

MATTERS ON REHEARING

Case	Issues	Status
EC96-19-001 to 005; ER98-1663-001 to 006; Order dated October 30, 1997, 81FERC ¶ 61,122	Rehearing requests on issues other than governance	By Order in Docket No. ER98-3760 these rehearing requests will be considered as part of the Unresolved Issues settlement and Briefing
EC96-19-024; ER96-1663-025; Order dated March 11, 1998, 82 FERC ¶ 61,236	Rehearing of selection of RMR units	Order issued 10/2/00 (93 FERC ¶ 61,001) - the Commission denied rehearing of the ISO's designation of Redondo Beach Generating station as an RMR unit
El Segundo, ER98-2550-000	CAL ISO rehearing request on cost-based rate cap	FERC issued a tolling order on 7/31/98
AES, ER98-2843-000, 98-2844, 98-2883-000; Long Beach, ER98-2972-000; El Segundo, ER98-2971-000; Ocean Vista et al., ER98-2977-000	Request for Emergency Stay, Request for Rehearing and Motion for Clarification regarding authorization to sell Ancillary Services at market-based rates	<p>Order dated July 17, 1998 - FERC denies motions for emergency stay of 6/30/98 and 7/10/98 Orders but authorizes the ISO to "reject bids in excess of whatever price levels it believes appropriate for Regulation, Spinning Reserve, Non-Spinning Reserve, and Replacement Reserve." FERC issues tolling order on 8/12/98.</p> <p>Order issued October 28, 1998 in AES Redondo Beach, LLC, et al., 85 FERC ¶ 61, 123 - FERC authorizes market-based rates for all sellers of Ancillary Services and Replacement Reserve Services with California and extends the interim authority of the ISO to limit prices it will pay for Ancillary Services. FERC directs the ISO to conduct a stakeholder process and make a comprehensive proposal to restructure the Ancillary Service markets by March 1, 1999. FERC also denies the requests for rehearing of its prior orders and SoCal's complaint in Docket No. EL98-62-000.</p>

CAL ISO, ER98-3760-002	Metropolitan Water District and Southern California Edison Rehearing Requests of September 11, 1998 Order accepting clarification filing	Tolling order issued 11/9/98
EC96-19-023; ER9-1663-024; Order dated May 28, 1988, 83 FERC ¶ 61,209 - Rehearing Requests Designated EC96-19-030 and ER96-1663-031	Rehearing of Amendment No. 7	
CAL ISO, ER99-3594-000	Rehearings of Amendment No. 9	<p>In an Order issued 8/2/99, 88 FERC ¶ 61,156, FERC acted on the rehearing requests regarding Amendment No. 9. FERC granted the ISO's request to postpone FTR implementation deadlines due to Y2K concerns. The ISO may conduct its initial FTR auction to permit release effective February 1, 2000 through March 31, 2001. The reports of the ISO and the Market Surveillance Committee, formerly due October 1, 1999, will now be due December 1, 2000. The Commission denied the intervenors' request for rehearing on the availability of physical transmission rights, stating that "properly designed financial rights" can be as effective as firm physical transmission rights, as long as the ISO has the ability to manage congestion efficiently. FERC denied requests for clarification that the ISO provide for FTRs that last for at least twenty years, on the one hand, and requests that the ISO not make any decision on long-term FTRs until there has been time to analyze market performance, on the other. The Commission expressed itself satisfied with the current plan, which will provide for FTR's lasting one year, while leaving the requirement that the ISO report on progress towards making longer-term FTRs available unchanged apart from the date the report will be due (December 1, 2000). The Commission denied the intervenors' request for rehearing on treatment of revenues for counter scheduling, stating such transactions need to be compensated appropriately, as the ISO Tariff currently provides. FERC granted the ISO's request to determine available capacity using a 99.5 percent historic capacity availability standard, as it was "satisfied...that the ISO is taking a conservative approach" which considers the possible harms which would result if the ISO released too much or too little capacity. The Commission directed the ISO to continue to review its methodology, to determine whether a more definite measure of available capacity can be developed, and to address its progress in this regard in the report. The Commission denied requests for rehearing on the desirability of creating new congestion zones before FTRs expire, treated in Tariff Section 9.2.2.1. As it did in the May 3 order, FERC again delayed providing guidance on issues related to secondary market transactions. The Commission also directed the ISO to modify its tariff to include the clarification that "any Participating Transmission Owner that has no transmission customers need not develop a Transmission Revenue Balancing Account, a Transmission Revenue Requirement, nor an Access Charge."</p>

CAL ISO, ER98-3594-005	TANC, M-S-R, Santa Clara, Redding and Modesto rehearing of 11/10/9 order (89 FERC 61,153)	
CAL ISO, ER98-3574-003	California ISO, SoCal Edison, and Dynegy requests for rehearing on Amendment No. 9	Order issued March 28, 2001 (94 FERC ¶ 61,343), the Commission grants the ISO's rehearing request and finds that entities such as DWR must have a TRR and TRBA in place, and denies and dismisses other requests for rehearing with regard to Docket Nos. ER98-3954 and ER00-1239.
CAL ISO, EC96-19-044 and ER96-1663-046	Turlock rehearing on Amendment 10	Tolling order issued 12/14/98
CAL ISO, EC96-19-043 and ER96-1663-044	SDG&E rehearing on Amendment 11	Order issued February 26, 2001 (94 FERC ¶ 61,210), the Commission grants in part and denies in part SDG&E's rehearing of Amendment No. 11. FERC states that its statement in the September 1998 order that Amendment No. 11 made a substantive change to Section 2.5.13 and SP 9.2(b) was dicta and that it takes no position on the ISO's dispute with SDG&E on the interpretation of those provisions.
CAL ISO, ER99-896-000	DWR, Cities of Redding and Santa Clara and M-S-R, ECI, TANC, So Cal Edison, and SDG&E rehearing of Amendment No. 13	Tolling order issued 4/9/99
CAL ISO, ER99-2730-002; and EL99-67-001	Western Power Trading Forum, Enron and Coral Power clarification and rehearing of June 17, 199 GMC Order - Amendment No. 16	Tolling order issued 8/10/99

PG&E; ER99-3145-001 and Laguna; EL98-46-006	PG&E and Edison rehearing of Laguna interconnection order- 88 FERC ¶ 61,164	Order issued 6/30/00 (91 FERC ¶ 61,340) - In response to PG&E and SCE's request for rehearing of the Commission's order requiring PG&E to interconnect with Laguna and PG&E's proposed interconnection with Fresno, FERC states that in <i>Central Main</i> , 90 FERC ¶ 61,214 (2000) and <i>Tennessee Power</i> , 90 FERC ¶ 61, 238 (2000) it clarified that interconnection is an element of open access service pursuant to Order No. 888 and that customers may request interconnection separately from delivery and thus the instant case might be moot unless the parties demonstrate within 30 days that the case should not be dismissed
PG&E; ER01-66-001	PG&E TO 5 rate filing	Tolling order issued 12/21/00
Southern Energy Delta and Southern Energy Protrero, Docket Nos. ER00-936-001 and ER00-937-001	The Commission rejected the proposed revisions to the maximum net dependable capacity values	Tolling order issued 4/4/00

El Segundo Power, LLC Docket No No. ER00-1830-001	Rehearing of order issued 4/27/00 rejecting a proposed non-market dispatch service tariff filed unilaterally by El Segundo.	Order issued April 30, 2001 (95 FERC ¶ 61,159), the Commission denies the request for rehearing of El Segundo Power of the Commission order issued April 27, 2000 (91 FERC ¶ 61,110), in which the Commission rejected El Segundo's proposed Non-Market Dispatch Service Tariff.
Southern Energy Delta and Southern Energy Protrero, Docket Nos. ER00-936-002 and ER00-937-002	Rehearing of order issued 5/22/00 (91 FERC ¶ 61,177) in which the Commission granted, in part, Southern Energy's request for rehearing to revise Schedule B of the RMR agreement.	Tolling order issued 7/18/00
PG&E Docket No. ER99-3145-002; Laguna Irrigation District Docket No. EL98-46-004; Fresno Irrigation District Docket No. EL99-50-002; PG&E Docket No. ER99-3713-002	Rehearing of Pacific Gas and Electric Co. et al., 91 FERC ¶ 61,340	Tolling order issued 8/17/00
SCE Docket No. ER97-2355-000, et al	Rehearing of Order No. 445 - Decision on SCE's TO Tariff	Tolling order issued 9/21/00
SDG&E v. Sellers of Energy and Ancillary Services; EL00-95-001	Rehearing of 8/23/00 Order (92 FERC ¶ 61,172)	Tolling order issued 10/16/00
SDG&E v. Sellers of Energy and Ancillary Services; EL00-95-004	Rehearing of November 1, 2000 Order, 93 FERC ¶ 61,121	Tolling order issued 12/20/00
SDG&E v. Sellers of Energy and Ancillary Services; EL00-95-	Rehearings of December 15, 2000 Order	Tolling order issued 1/12/00
City of Vernon, California; ER00-105-002	Rehearing of 93 FERC ¶ 61,103 regarding Vernon's proposed Access Charge Rates	Order issued February 21, 2001 (94 FERC ¶ 61,148), the Commission denied rehearing requests of the Order approving the ISO's Amendment No. 27 compliance filing. The Commission also denied rehearing requests regarding Vernon's transmission revenue requirement in Docket No. EL00-105-002.
Revision of Annual Charges; RM00-7-001	Rehearing of 93 FERC ¶ 61,083	Order issued March 15, 2001 (94 FERC ¶ 61,290), the Commission issues an order on rehearing of its Annual Charge rule. With regard to the ISO's request for clarification that there is a need to collect these charges even if there is uncertainty as to what the actual amounts will be eventually, the Commission reiterated that these costs can be recovered as an element of transmission rates and that its regulations provided "great flexibility" as to the manner of recovery.
SDG&E v. Sellers of Energy and Ancillary Services; EL00-95	Rehearing of March 9 order on refunds for January; 94 FERC ¶ 61,245	Tolling order issued 4/23/01

VI. COMPLAINTS

Complaint	Date Filed	Noticed	Response Due	Comments
EL98-51-000 Eric Woychick Utility Reform Network et al v. California ISO	5/27/98	7/1/98	7/31/98	<p>Complaint by TURN, UCAN and CU regarding the governance structure</p> <p>Order issued November 24, 1998 (85 FERC ¶ 61,263) addressing compliance issues relating to ISO governance. FERC directs the ISO to amend its Bylaws within 45 days, to seat Mr. Woychik immediately for a full term or on an interim basis pending further elections.</p> <p>Order denying the Oversight Board's rehearing request issued 2/4/99</p>
EL98-62-000	7/13/98	7/17/98	8/17/98	<p>Complaint filed by SCE regarding FERC authorizations to AES and others to sell ancillary services at market-based rates. Order issued October 28, 1998 in AES Redondo Beach, LLC, et al., 85 FERC ¶ 61,123 - FERC denies the complaint in Docket No. EL98-62-000.</p>
EL99-30-000	1/20/99	3/5/99	3/5/99	<p>Complaint by Western Power Trading Forum alleging that the GMC is unjust, unreasonable, unduly discriminatory, and in violation of prior ISO settlement</p> <p>Orders issued 4/2/99 (87 FERC ¶ 61,016 and 87 FERC ¶ 61,023) - the Commission: (1) accepted the ISO's informational filing of 12/15/98 and rejected EPUC/CAC's protest; (2) dismissed Western Power Trading Forum's complaint as duplicative; (3) reaffirmed its determination that the extension filing was one under section 205 to modify an existing rate rather than a contested settlement; (4) established a refund effective date under section 206 (since there was no rate increase their could not be a refund); and (5) affirmed that no purpose would be served by holding a hearing prior to the July 1, 1999 proceeding.</p>
EL00-58-000	3/24/00		4/14/00	<p>Complaint by Western Power Trading Forum alleging that the GMC is unjust, unreasonable, unduly discriminatory, and in violation of prior ISO settlement</p> <p>Order issued 7/13/00 - the Commission clarified that the refund effective dates established in previous GMC-related proceedings continue to apply to all amounts collected on or after 1/1/2000 and, therefore, dismissed WPTF's complaint as moot.</p>

EL99-93-000	9/17/99	9/20/99	10/7/99	<p>Complaint by Turlock and Modesto alleging undue discrimination in treatment of resources supplying AS and IE from units inside the ISO Control Area as opposed to units outside the ISO Control Area. Order issued 11/15/99 (89 FERC ¶ 61,182) - the Commission sets complaint for hearing but holds the hearing in abeyance and instituted settlement judge proceedings.</p>
EL00-91-000	7/10/00	7/12/00	7/21/00	<p>Complaint by Morgan Stanley Capital Group challenging the Board decision to lower price cap to \$500/Mwh</p> <p>Order issued 7/28/00 (92 FERC ¶ 61,112) - FERC denies complaint against the ISO for reducing the bid caps from \$750 to \$500 by Morgan Stanley. FERC noted that “the ISO has no more or less ability to procure capacity and energy than any other buyer of these services.” Thus, the caps did not establish the prices that sellers may charge - only the price the ISO was willing to pay. The Commission explicitly noted that the ISO could not require sellers to bid absent a filing under section 205 of the FPA.</p>
EL00-95-000	8/2/00	8/3/00	8/14/00	<p>Complaint by SDG&E against sellers of energy and ancillary services into the PX and the ISO seeking bid caps of \$250</p> <p>Order issued 8/23/00 (92 FERC ¶ 61,172) - the Commission denies SDG&E’s requested immediate imposition of a price cap on all sellers into the PX and ISO markets. Instead, FERC initiates a proceeding pursuant to section 206 of the FPA to investigate the justness and reasonableness of the rates that public utility sellers into those markets are exercising. FERC will also evaluate whether or not institutional structures and bylaws of the PX and the ISO are adversely effecting efficient operation of the market. FERC intends to await its ongoing staff investigation before deciding on further procedures. FERC deferred any consideration of the merits of the ISO’s congestion management reform efforts until the earlier of the date of the ISO’s filing of its proposal or the date upon which the Commission issues a supplemental order in this proceeding. FERC also expressed concern that the underscheduling of loads in the forward markets posed reliability and economic concerns. FERC ordered the ISO to immediately institute a more forward approach to procuring resources necessary to reliably operate the grid.</p>

EL00-95-000, et al.			10/19/00 12/15/00	<p>Order issued 10/19/00 (93 FERC ¶ 61,051) - the Commission announces expedited procedures for addressing California market issues.</p> <p>Order issued December 15, 2000 (93 FERC ¶ 61,294), the Commission's Order Directing Remedies for the California Wholesale Electric Markets. Included in remedies adopted by FERC are: (1) Elimination of the mandatory PX buy-sell requirement; (2) establishment of a benchmark price for assessing five-year energy supply contracts; (3) adoption of penalties for underscheduling of load; (4) modification of the ISO Governing Board; and (4) adoption of a soft price cap at \$150/MWh.</p>
EL00-97-000	8/3/00	8/4/00	8/14/00 12/15/00	<p>Complaint by Reliant alleging that the ISO had failed to provide a mechanism by which generators would be fully compensated for curtailed exports</p>
EL00-104	8/29/00		12/15/00	<p>Complaint by the Electric Oversight Board against all jurisdictional sellers of Energy and Ancillary Services into the California markets</p> <p>EOB seeks imposition of bid caps at \$250 per MWh for A/S and Energy and \$100 for replacement reserve</p> <p>Order issued December 15, 2000 (93 FERC ¶ 61,294), Denies complaint.</p>
EL00-111-000	9/18/00	9/18/00	9/25/00	<p>Complaint by Southern Cities regarding allocation of Out-of Market costs</p> <p>Order issued March 14, 2001 (94 FERC 61,268), the Commission dismisses in part and grants in part Complaint by Cities of Anaheim, Azusa, and Banning regarding recovery of OOM costs through the neutrality adjustment. The Commission found that the issue of OOM allocation was resolved by Amendment No. 33. However, FERC found that the ISO exceeded the Tariff's neutrality adjustment charge limit of \$0.096/MWh.</p>
EL01-1-00	10/6/00		12/15/00	<p>Complaint by CMUA against all jurisdictional sellers of Energy and Ancillary Services into the California markets</p> <p>CMU seeks reimposition of cost-based rates on FERC jurisdictional sellers.</p> <p>Order issued December 15, 2000 (93 FERC ¶ 61,294), Denies complaint.</p>

		12/4/98	12/9/98	12/28/98	5/3/99; 87 FERC 61,143 8/2/99	Order conditionally accepting proposed tariff changes
Amendment No. 9 [FTR]	ISO; ER98-3594-001				8/2/99; 88 FERC ¶ 61,156	FERC granted the ISO's request to postpone FTR implementation deadlines due to Y2K concerns. The ISO may conduct its initial FTR auction to permit release effective February 1, 2000 through March 31, 2001. The reports of the ISO and the Market Surveillance Committee, formerly due October 1, 1999, will now be due December 1, 2000. The Commission denied the intervenors' request for rehearing on the availability of physical transmission rights, stating that "properly designed financial rights" can be as effective as firm physical transmission rights, as long as the ISO has the ability to manage congestion efficiently. FERC denied requests for clarification that the ISO provide for FTRs that last for at least twenty years, on the one hand, and requests that the ISO not make any decision on long-term FTRs until there has been time to analyze market performance, on the other. The Commission expressed itself satisfied with the current plan, which will provide for FTR's lasting one year, while leaving the requirement that the ISO report on progress towards making longer-term FTRs available unchanged apart from the date the report will be due (December 1, 2000). The Commission denied the intervenors' request for rehearing on treatment of revenues for counter scheduling, stating such transactions need to be compensated appropriately, as the ISO Tariff currently provides. FERC granted the ISO's request to determine available capacity using a 99.5 percent historic capacity availability standard, as it was "satisfied...that the ISO is taking a conservative approach" which considers the possible harms which would result if the ISO released too much or too little capacity. The Commission directed the ISO to continue to review its methodology, to determine whether a more definite measure of available capacity can be developed, and to address its progress in this regard in the report. The Commission denied requests for rehearing on the desirability of creating new congestion zones before FTRs expire, treated in Tariff Section 9.2.2.1. As it did in the May 3 order, FERC again delayed providing guidance on issues related to secondary market transactions. The Commission also directed the ISO to modify its tariff to include the clarification that "any Participating Transmission Owner that has no transmission customers need not develop a Transmission Revenue Balancing Account, a Transmission Revenue Requirement, nor an Access Charge."

Amendment No. 9					11/10/99	Order issued 11/10/99 (89 FERC ¶ 61,153) - the Commission responded to certain questions regarding jurisdiction and price limits for firm transmission rights. FERC concluded that resales of FTRs in the secondary market are jurisdictional transactions and required public utility resellers to file for authorization to make such sales. FERC also stated that the resales were subject to its policy with respect to price caps for transmission rights but noted that since FTRs would initially be sold for terms of less than one year the prices paid in the secondary market should not exceed the sellers opportunity cost thus meeting the standard. Finally, FERC required the ISO to post prices at which FTRs are sold in the secondary market.

A/S Redesign Amendment No. 14	Cal ISO, ER99-1971	3/1/99	3/4/99	3/26/99	5/26/99 7/26/99	Order issued 5/26/99, 87 FERC ¶ 61,208, FERC largely approves Amendment 14 and confirms that the ISO acted correctly when it reduced above-cap A/S bids to the applicable cap. FERC: (1) conditionally accepted the rational buyer proposal, while expressing doubts about some components and requiring MSC to report on its implementation by 10/15/99; (2) approved the changes for replacement reserves/effective price and automated BEEP without condition; (3) accepted the Reg up/ Reg down and inter-SC trade proposals noting ISO agreement to clarify tariff provisions; (4) accepted the buy-back proposal (Billing on Metered Demand) as to self-provided capacity that is voluntarily withdrawn by an SC, but rejected it as to self-provided capacity withdrawn at the instruction of the ISO (noting the situation where self-provided capacity must be withdrawn because a transmission line is derated); (5) accepted the Generator Communication proposal; (6) rejected arguments that FERC mandate filing of pro forma PLA agreement, leaving that issue to stakeholder discussions; (7) permitted ISO to retain price cap authority only through November 15, 1999 (if ISO wants to retain authority, it must demonstrate after the summer that market design flaws remain); (8) rejected the argument that ISO should eliminate or modify the 25% limit on A/S imports; and (9) confirmed the reasonableness of the ISO's reducing above-cap bids to the applicable cap.
Amendment No. 14 Rehearing	Cal ISO, ER99-1971-001	6/25/99			7/26/99	Order issued 7/26/99 (88 FERC ¶ 61,096), FERC denied the ISO's request for rehearing and stay of the May 26, 1999 order rejecting the buy-back proposal (Billing on Metered Demand) as to self-provided capacity withdrawn at the instruction of the ISO.
Amendment No. 14 Compliance Filing	Cal ISO; ER99-1971-002	7/2/99 & 8/6/99	7/8/99 & 8/23/99	7/22/99 & 9/9/99	10/8/99	Accepted for filing

Amendment No. 14	Cal ISO; ER99-1971-002				1/14/99	Order issued 1/14/00 (90 FERC ¶ 61,036) the Commission clarified that the ISO's buy back proposal required that only Ancillary Services that are voluntarily withdrawn from the day-ahead schedule by an SC, regardless of whether they are self-provided or sold into the market, should be subject to the buy back proposal. The Commission then reiterated a statement made in the May 26 Order, that the shouldconsider implementing a bidding mechanism to address situations in which it must change the amount of capacity self-provided or sold into the Ancillary Services markets. The Commission also: (1) rejected SoCal Edison's request for rehearing of the Commission's approval of the ISO's proposal to allocate to load the cost of extra Replacement Reserves needed to meet demand not scheduled in the day-ahead market; (2) denied rehearing requests by El Segundo and Long Beach alleging inconsistent Commission treatment of different kinds of price caps and that the ISO's treatment of above-cap bids results in unilateral adjustments to bidders' rate schedules; and (3) granted the ISO's clarification that the the May 26 Order merely cautioned that FERC-licensed hydro facilities must have the flexibility to control output if necessary but was not intended to suggest that licensees should be exempted. The Commission also rejected as moot all requests for rehearing concerning the extension of the ISO's price cap authority, because the Commission's approval of Amendment No. 21 had already extended the ISO's price cap authority until November 15, 2000.

ISO GMC - Amendment 16	Cal ISO, ER99-2730-000	4/30/99	5/5/99	5/20/99	6/17/99	FERC approves an order on the GMC. FERC: (1) accepts the filing effective July 1, 1999, to extend the GMC to 12/31/2000; (2) initiates a 206 investigation of the filing, effective 60 days after notice is published; (3) denies requests for hearings in light of fact that there is no unbunbling study or computer capabilities; and (4) makes the GMC for this period subject to the outcome of the GMC filing to become effective on January 1, 2001. In light of the decisions to put the case off to the next filing, the Commission rejects the surcharge request as premature.

The California ISO was directed to reconvene its stakeholder process to redesign its new generation interconnection policy. The Commission granted the ISO’s request for an extension of time to file a report evaluating zone creation.</p> <p>Order issued 1/31/00 (90 FERC ¶ 61,086) the Commission denied the ISO’s request for rehearing concerning the new generator interconnection policy. As to Duke’s request that the Commission clarify its stance on the costs for which new generators are responsible, the Commission stated that the September 15 Order intended neither to create nor reject any principles of cost allocation. Moreover, the Commission stated that it has never established the “principle” that Duke posits, <i>i.e.</i>, that new generators must be responsible for the additional redispatch costs incurred by existing generators as a result of increased congestion.</p>

Amendment No. 22 - Quarterly filing	Cal ISO, ER99-4545-000	9/27/99	10/4/99	10/15/99	11/24/99 3/29/00	<p>FERC: (1) approved creation of a new congestion management zone south of transmission Path 15; (2) found the ISO's proposed FTR registration requirements to be reasonable; (3) accepted the ISO's proposed method of establishing the seed price for FTRs in new zones; (4) authorized the ISO to allocate the costs of generating units that are not within the service area of a PTO but which are designated as RMR units to the PTO whose service areas are contiguous to the designated unit (subject to a separate section 205 rate filing); and (5) accepted the ETC and FTR template proposals. FERC denied the request that the ISO be required to verify that its schedules, as submitted, properly reflect the FTR holdings of individual market participants. FERC directs the ISO to submit in a compliance filing revised Tariff provisions indicating that certain information on FTR sales and resales that will be posted on the Home Page. The Commission also accepted on a prospective basis proposed Tariff changes to modify the ISO's method of calculating transmission losses and to modify the ISO's method for allocating transmission losses for imbalance energy and unaccounted for energy to utility distribution companies. Finally, FERC approved the ISO's proposals: (1) to provide market participants with a mechanism to dispute new or modified charges or credits that appear for the first time on final settlement statements and (2) to modify Tariff revisions regarding the allocation of awards payable to or from the ISO pursuant to good faith negotiations and/or the ADR process.</p> <p>3/29/00 (90 FERC ¶ 61,315). On rehearing, the Commission: (1) reiterated that the proposed assignment of RMR costs was appropriate; (2) noted that recovery of RMR costs is through a formula rate and therefore no purpose would be served by filing each contract the ISO enters into with a non-jurisdictional entity; and (3) denied PG&E's rehearing request with respect to the proposed procedure to address charges or credits that appear for the first time on a final statement and to make the transmission loss methodology retroactive to the beginning of ISO operations. FERC also stated that the approval of Zone 26 was specific to the facts of Amendment No. 22 and the criterion in place at that time.</p>

The Commission rejected the ISO's proposal to expand out-of-market authority to situations in which generators had submitted bids but the ISO determined that the markets for such bids were not competitive. FERC found the existing intra-zonal congestion management approach "fundamentally flawed" and in need of being "overhauled or replaced." FERC accepted the proposed changes in the payment calculation for out of market calls and the allocation of the costs of ISO dispatch orders to manage intra-zonal congestion.</p> <p>Order Issued 4/12/00 (91 FERC ¶ 61,026) the Commission denies requests for rehearing and clarification of ISO, Dynegy and SoCal Edison. Amendment No. 27 - transmission Access Charge	Cal ISO; ER00-2019	3/31/00	4/7/00	4/21/00	5/31/00	91 FERC ¶ 61,205 - The Commission conditionally accepted the filing effective 6/1/00, subject to hearing. FERC also ordered that settlement judge procedures be initiated. The Commission "concur[red] with the ISO's objectives of creating an equitable balance of costs and benefits among the various affected classes of stakeholders and the treatment of all Participating TOs on the same basis" and endorsed the two-tiered rate approach and supported the ISO's proposed TAC Areas. The Commission expressed concern, however, about the possibility of a different transition period for LADWP. The Commission recognized that some transition period may be appropriate in order to mitigate costs shifts and that a cap on cost shifts to the customers of the Original PTOs during that period may also be appropriate and directed that the record should be further developed. The Commission rejected the proposed "buy down" provision as unsupported, potentially discriminatory, and inconsistent with Order No. 2000. With regard to the Revenue Review Panel, the Commission determined that FERC must be able to determine whether the ISO's pass-through of the costs associated with non-public utilities to the ISO's customers is just and reasonable. FERC generally found the ISO's proposed treatment of FTRs, including the proposal to limit the term of FTRs given to new Participating TOs, to be reasonable. FERC stated that the problem of phantom congestion represented "a market inefficiency that must be addressed and rectified as quickly as possible. The Commission also generally agreed with the criteria used by the ISO to support the proposed gross load exemptions for existing QF and cogeneration facilities, but stated that the "record should be further developed to demonstrate that the criteria are applied in a non-discriminatory manner. The Commission encouraged the ISO and governmental entities to continue their ongoing negotiations before a settlement judge on Metered Subsystems. The Commission also noted that the question of whether MSS status should be available only to those entities becoming new Participating TOs will be addressed by the Commission in Docket Nos. ER98-3760

Order issued February 21, 2001 (94 FERC ¶ 61,148), the Commission denied rehearing requests of the Order approving the ISO's Amendment No. 27 compliance filing. FERC “accept[ed] the ISO's Tariff modifications to permit small distributed generation to participate in the ISO's markets.” “ In order for a generator to participate in the ISO's markets, a generator needed to provide telemetry and direct control equipment such that the ISO could direct the operation of the generator as necessary to maintain the reliability of the grid...It is reasonable to extend this requirement.” FERC found that Grid Service's “argument that the Commission does not have jurisdiction to address distributed generation are without merit. Sales for resale by a distributed generator and the transmission of electric energy in interstate commerce (including unbundled retail transmission) are subject to the Commission's jurisdiction.” FERC also accepted the changes to implement the WSCC reliability criteria, annual charges, meter data submission deadline, the neutrality cap, and no pay exemption for load. With respect to the proposed RMR pre-dispatch change, the Commission found that the proposal to permit mixed elections within the same hour needlessly adds complexity to the RMR settlement process and is rejected.

FERC found that it was appropriate to allow SoCal Edison and PG&E to continue to schedule their own resources, but denied the ISO proposal to relax creditworthiness standards to the extent they affect third-party suppliers. FERC also ordered the ISO to submit a compliance filing to incorporate provisions for an acceptable for of credit support that provides adequate assurance of payment. FERC and denied Dynegey's request to modify the payment calendar. Finally, FERC continued to recognize the ISO's authority in the event of a bid insufficiency to issue emergency dispatch instructions. Procedural schedule set for remaining issues.</p> <p>Initial Decision issued 6/7/00 (91 FERC ¶ 63,008 - concerning the fixed-cost compensation and the ISO's share of the costs of capital items and repairs to be paid under Condition 1 of the RMR Contracts for Southern Energy Delta and Southern Energy Potrero. The ISO, the Participating TOs, the CPUC, and the EOB, and the FERC Staff took the position that the RMR Owners should receive a "Fixed Option Payment" ("FOP") equivalent to the incremental costs attributable to RMR service (which included any amount by which going forward costs exceeded market revenues), net of any incremental revenues attributable to RMR service. These parties (except the CPUC) also advocated an additional incentive payment. The CPUC opposed an incentive payment. Southern Parties asserted entitlement to a percentage of total fixed costs (including sunk costs) based on (1) the hours that the units must be available to the ISO as a percentage of total available hours and (2) the hours that the ISO has called upon the unit as a percentage of total operating hours. The Presiding Judge concluded that because RMR obligations are simply contractual mechanisms enabling generators with potential local market power to participate in competitive markets, compensation for RMR unit availability should neither unnecessarily advantage nor unnecessarily disadvantage RMR unit participation. He found that the net incremental cost</p>

						compensation proposal achieved these objectives and does not deprive the RMR owner of any significant opportunity to participate in the competitive markets or to maximize the financial rewards. The Presiding Judge also found that none of the proposed incentive payments was appropriate.

	PG&E ER97-2358-000	3/31/97	4/7/97	6/6/97	12/17/97	Offer of Settlement filed 4/14/99 as corrected 4/30/99 certified to the Commission by Order dated 5/20/99
TO 3	PG&E; ER99-2326-000	3/31/99	4/5/99	4/20/99	5/27/99 3/16/01	Accepted for filing subject to refund. Hearing established. On 11/8/99, PG&E filed an Offer of Settlement covering wholesale transmission rate issues. This was certified to the Commission as an uncontested settlement on 12/9/99 and accepted on 4/26/00, 91 FERC ¶ 61,090. Order issued March 16, 2001, 94 FERC ¶ 61,306, the Commission dismissed the CPUC's rehearing request that FERC was wrong to measure PG&E's proposed TO3 rates against the currently effective TO2 rates rather than the TO2 settlement rates for purposes of determining whether suspension was appropriate.

	SCE ER97-2355-000	3/31/97	4/7/97	6/6/97	12/17/97 7/26/00	Initial Decision issued 3/31/99 92 FERC ¶ 61,070 - the Commission issues Opinion No. 445 on Southern California Edison's TO Tariff rates. FERC reverses the ALJ decision in three areas: customer credits, ROE, and rates for SCE's sales of Ancillary Services. With regard to credits for non-participating TO transmission facilities, FERC states that in order for the

						municipals to qualify for credits they must join the ISO. On ROE, FERC rejected the methodology it applies to gas pipelines in favor of a one-step constant growth DCF methodology. FERC also accepted SCE's proposed bid caps for its Ancillary Service sales prior to divestiture. Rehearing requests are pending.

IX . RULEMAKINGS

Rulemakings					
Description	Docket	Date Noticed	Interv. Due	FERC Orders	Status
RTO	RM99-2-000	7/21/99	8/23/99	12/20/99 final rule, Order 2000, issued; 89 FERC ¶ 61,285 2/25/00, order on reh'g, 90 FERC ¶ 61,201	A public utility that is a member of an existing transmission entity that has been approved by the Commission as in conformance with the eleven ISO principles set forth in Order No. 888 must make a filing no later than January 15, 2001. That filing must explain the extent to which the transmission entity in which it participates meets the minimum characteristics and functions for an RTO, and either propose to modify the existing institution to the extent necessary to become an RTO, or explain the efforts, obstacles and plans with respect to conforming to these characteristics and functions.
Designation of Electric Rate Schedules	RM99-12-000			3/31/00	Revises regulations on tariff sheet designation effective 6/1/00
Revision of Annual Charges Assessed to Public Utilities	RM00-7-000	1/28/00	4/3/00	10/26/00 3/15/01	On 10/26/00 (93 FERC ¶ 61,083) - the Commission issued Order No. 641, its final rule regarding assessment of annual charges. FERC will recover the costs of its electric regulatory program based solely on the volume of electricity transmitted by public utilities including, in regions where they exist, ISOs or RTOs. Order issued March 15, 2001 (94 FERC ¶ 61,290), the Commission issues an order on rehearing of its Annual Charge rule. With regard to the ISO's request for clarification that there is a need to collect these charges even if there is uncertainty as to what the actual amounts will be eventually, the Commission reiterated that these costs can be recovered as an element of transmission rates and that its regulations provided "great flexibility" as to the manner of recovery.
