

**UNITED STATES OF AMERICA  
BEFORE THE  
FEDERAL ENERGY REGULATORY COMMISSION**

**Pacific Gas and Electric Company     )     Docket No. ER10-2055-000**

**MOTION TO INTERVENE AND COMMENTS OF THE  
CALIFORNIA INDEPENDENT SYSTEM OPERATOR CORPORATION**

Pursuant to Rule 214 of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (Commission), 18 C.F.R. § 385.214, and the Commission's July 30, 2010, Combined Notice of Filings, the California Independent System Operator Corporation (ISO) submits this motion to intervene and comments in the above captioned proceeding.

**I.     DESCRIPTION OF THE PROCEEDING**

On July 29, 2010, Pacific Gas and Electric Company (PG&E) submitted proposed revisions to the Interim Dual Fuel Agreement between PG&E and the ISO. The purpose of the proposed revisions is to substitute a new generating unit in place of a unit scheduled for retirement and to update P&GE's contact information. PG&E also requests waiver of any applicable rules or regulations, including waiver of the Commission's notice requirements set forth in Section 35.3, 18 C.F.R. § 35.11. By its notice issued July 30, 2010, the Commission established August 19, as the date motions to intervene are to be filed in the above-captioned proceeding.

## **II. DESCRIPTION OF THE ISO AND COMMUNICATIONS**

The ISO is a non-profit public benefit corporation organized under the laws of the State of California with its principal place of business at 151 Blue Ravine Road, Folsom, CA 95630. The ISO is the Balancing Authority Area operator responsible for the reliable operation of the electric grid comprising the transmission systems of a number of utilities, including PG&E as well as the coordination of the ancillary services and real-time electricity markets in California.

The ISO requests that all communications and notices concerning this motion and these proceedings be provided to:

## **III. THE ISO'S INTEREST**

The ISO has determined that it is necessary for the PG&E's resources subject to the Interim Dual Fuel Agreement to have dual fuel capability in order to be available to meet local reliability needs in the event of an interruption of natural gas deliveries. As the Balancing Authority Area operator and as the counter party to the Interim Dual Fuel Agreement, the ISO has a unique interest in any Commission proceeding that affects the agreement. Accordingly, the ISO has a direct and substantial interest in this proceeding and requests that it be

permitted to intervene. Because no other party can adequately represent the ISO's interests in this proceeding, the ISO's intervention is in the public interest and should be granted.

#### **IV. COMMENTS**

The ISO supports PG&E's revisions to the Interim Dual Fuel Agreement and urges the Commission to accept them as requested by PG&E.

#### **V. CONCLUSION**

For the foregoing reasons, the ISO respectfully requests that the Commission grant this Motion to Intervene and make the ISO a party in the above-caption proceeding with full rights of participation.

Dated: August 19, 2010

Respectfully submitted
