

Memorandum

To: ISO Board of Governors
From: Karen Edson, Vice President, Policy and Client Services
Date: July 9 , 2015
Re: **Business practice manual change management report**

This memorandum does not require Board action.

This memorandum is a regular report required by the Federal Energy Regulatory Commission to inform the ISO Board of Governors on the status of the business practice manual change requests submitted by stakeholders and the California Independent System Operator Corporation.

The ISO inaugurated the public change management process for business practice manuals (BPMs) on April 1, 2009. Both the ISO and stakeholders use the same electronic system and process to submit and track proposed changes to the BPMs. The process includes stakeholder review, ISO approval or rejection, and a possible appeal to the BPM Appeals Committee, which is comprised of three ISO officers.

As of June 24, 2015, twelve proposed revision requests (PRRs) were active in the BPM change management system. All were submitted by the ISO. These twelve active PRRs affect the following BPMs:

- Energy Imbalance Market (1 request)
- Generator Management (3 requests)
- Managing Full Network Model (1 request)
- Market Instruments (1 request)
- Market Operations (1 request)
- Settlements and Billing (5 requests)

PROCESS OVERVIEW

The ISO held monthly BPM change management stakeholder meetings on April 28, 2015, where twenty-three stakeholders participated, on May 26, 2015, where sixteen stakeholders participated, and on June 23, 2015, where sixteen stakeholders participated. Based on stakeholder comments during the meeting and on the types of comments entered into the BPM change management electronic system, it appears that stakeholders are generally satisfied with the process.

BPM CHANGE MANAGEMENT REPORT

In compliance with the tariff reporting requirements, attachment 1 of this report:

- States the total number of active PRRs submitted by stakeholders and by the ISO;
- Depicts the active PRRs in various steps along the PRR lifecycle, as of June 24, 2015;
- Reflects that twelve PRRs were in final decision status for the period April 25, 2015 through June 24, 2015; and
- Includes PRRs currently under stakeholder appeal, the stakeholder positions on rejected PRRs, and the reasons for rejection.

The following is additional relevant information:

- There are no PRRs under stakeholder appeal.
- There were no rejected PRRs.
- Four of the active PRRs were submitted into the electronic system by the ISO on an emergency basis.

The four emergency PRRs required rapid implementation, as the effective dates occurred prior to the completion of the BPM change management stakeholder process.

A PRR report summarizing the content of each active PRR in the BPM change management system as of June 24, 2015, is included as attachment 2.
