Re: **Business practice manual change management report**

This memorandum does not require ISO Board of Governors action.

As required by the Federal Energy Regulatory Commission, Management provides this report to inform the ISO Board of Governors on the status of the business practice manual change requests submitted by stakeholders and/or the California Independent System Operator Corporation.

The ISO inaugurated the public change management process for business practice manuals (BPMs) on April 1, 2009. Both the ISO and stakeholders use the same electronic system and process to submit and track proposed changes to the BPMs. The process includes stakeholder review, ISO approval or rejection, and a possible appeal to the BPM Appeals Committee, which is comprised of three ISO officers.

As of August 9, 2022, the following table represents the active Proposed Revision Requests (PRRs) in the BPM change management system.

Business Practice Manual (BPM)	# of PRR's
Demand Response	1
Generator Interconnection and Deliverability Allocation Procedures	1
Generator Management	1
Market Instruments	2
Market Operations	1
Metering	1
Reliability Requirements	2
Settlements and Billing	1
Total:	**10**

PROCESS OVERVIEW

The ISO held one monthly BPM change management stakeholder meetings since the submittal of the previous Board report. There was a stakeholder meeting on July 26, 2022, in which seventeen (17) stakeholders participated. Based on stakeholder comments during the meetings and comments entered into the BPM change management electronic system, it appears that stakeholders are generally satisfied with the process.
