

Transmission Development Forum

April 26, 2022

Reminders

- Stakeholder calls and meetings related to Transmission Planning are not recorded.
 - Given the expectation that documentation from these calls will be referred to in subsequent regulatory proceedings, we address written questions through written comments, and enable more informal dialogue at the call itself.
 - Minutes are not generated from these calls, however, written responses are provided to all submitted comments.
- To ask a question, press #2 on your telephone keypad. Please state your name and affiliation first.
- Calls are structured to stimulate an honest dialogue and engage different perspectives.
- Please keep comments friendly and respectful.

Transmission Development Forum Stakeholder Call – Agenda

Topic	Presenter
Overview	Jeff Billinton – CAISO
Valley Electric Association / GridLiance West	VEA/GLW
Southern California Edison	SCE
San Diego Gas & Electric	SDG&E
Pacific Gas & Electric	PG&E
Wrap-up	Jeff Billinton

Overview

- The CAISO is hosting, in collaboration with the CPUC, the Transmission Development Forum
- The purpose of the Transmission Development Forum is to create a single forum to track the status of transmission network upgrade projects that affect generators and all other transmission projects approved in the CAISO's transmission planning process
 - will not address individual interconnection concerns, but instead is intended to provide all stakeholders information on the status of new transmission projects and network upgrades

The scope of the projects for the forum are:

- Previously approved projects through the CAISO transmission planning process
- Network upgrades identified in the generator interconnection process
 - Only projects that have progressed to having executed LGIA that have triggered initiation of projects have been included

Project Information

- Workbooks of the approved transmission projects, network upgrades and the presentations are posted on the CAISO website under Transmission Development Forum
 - <http://www.caiso.com/informed/Pages/MeetingsEvents/UserGroupsRecurringMeetings/Default.aspx>
- The workbooks with the project information will be updated on a quarterly basis
- The CAISO will host the Transmission Development Forum on a quarterly basis to provide an opportunity to present changes in the status of projects

Format – Information Standardizations

- The CAISO and PTOs continue to align and enhance the formatting of the workbooks and presentations
 - For some of the additions to the workbooks, the updates include the information available for the April transmission development forum and will continue to be added in future quarterly cycles

Wrap-up
