

Stakeholder Comments – Price Performance Analysis

Submitted By	Representative	Date Submitted
Paul Nelson 213-444-9349	California Large Energy Consumers Association (CLECA)	July 3, 2019

CLECA appreciates the CAISO reviewed CLECA's concern about the possible pricing impacts that can occur when Reliability Demand Response Resources (RDRR) are inserted into the bid stack and then are dispatched prior to remaining economic-based demand response programs. CLECA understands that the CAISO is prioritizing the Price Performance Initiative for issues that are currently occurring and do so more frequently than RDRR. CLECA is encouraged that, per the presentation, CAISO will consider the RDRR issue in the future.
