California ISO Markets Stable for Third Full Year in a Row *Real-Time Grid Congestion Sends Signal for Adding Transmission Capacity*

NEWSCALL AT 11:00 A.M. WITH CEO YAKOUT MANSOUR AND DIRECTOR OF
DEPARTMENT OF MARKET ANALYSIS DR. ANJALI SHEFFRIN

(Folsom, CA) The California Independent System Operator's (California ISO) Annual Report on Market Issues and Performance shows a steady and stable market for the third full year in a row. The detailed report of market trends for 2004 also highlights challenges facing California.

The President and CEO of the California ISO, Yakout Mansour, and the Director of the Department of Market Analysis, Dr. Anjali Sheffrin will be available this morning to discuss the report. The final report itself will be posted today on the home page of the California ISO website at www.caiso.com.
