

***Instructions For  
Renewing Your  
CAISO Multiple Application (CMA)  
End User Digital Certificate***

The certificate renewal email is triggered by your organization's User Access Administrator (UAA) approving continued access. Once you receive the renewal email from the California ISO's Certificate Requests mailbox, you will need to register for a replacement certificate. CAISO's renewal process is to issue a new certificate and let the old certificate expire. Once you register for a replacement, you will receive emails with further instructions.

The purpose of this document is to provide supplemental information with screen shots that can be used in conjunction with the instructions received in the New User Notification email.

1. Have your UAA approve you for continued access.
2. Register for a new digital certificate using the information provided in the Renew User Certificate email.
3. From the PC that you plan to use the certificate on, click on the <http://www.caiso.com/pages/Cybertrust.aspx> link provided in the email – **only compatible using Microsoft Edge in Internet Explorer Compatibility Mode.**  
<https://www.caiso.com/Documents/UsingEdgeforCybertrustCertificates.pdf>
4. Choose the certificate type you are registering for. Unless you are an ISO Employee or contractor, you will choose Participants & External Users.

Certificate Type

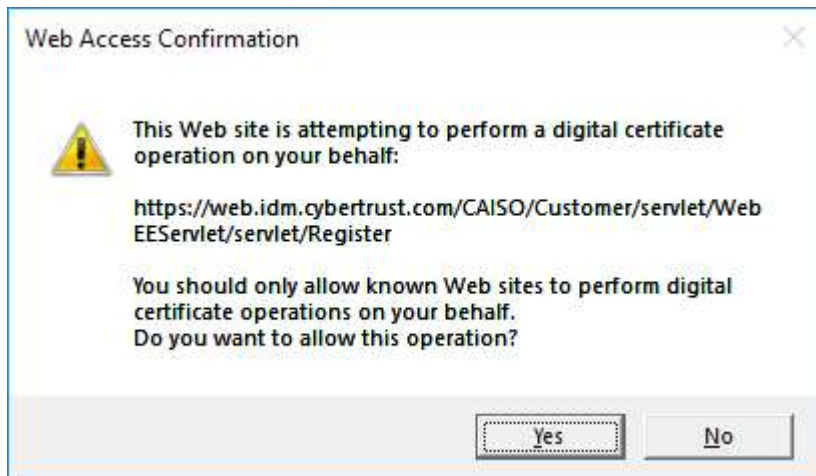

## Choose Certificate Type

### Policy Name

[ISO Employees & Contractors](#)

[Participants & External Users](#)

Click **Yes** if you receive a Web Access Confirmation pop-up window.

4. Complete the registration form:

- Enter the Common Name that is provided in the New User Notification email
- Enter your email address
- Enter a passphrase that is at least 8 characters and contains a mix of upper- and lowercase characters, digits and punctuation in both the Pickup Passphrase and Pickup Passphrase Confirmation fields.

**REMEMBER THIS PASSPHRASE, AS IT WILL BE REQUIRED LATER FOR INSTALLING THE CERTIFICATE.**

- Click Submit.

**Certificate Request**

**Participants & External Users**

**Common Name**

**Email Address**

**Key Algorithm** RSA

**Pickup Passphrase**

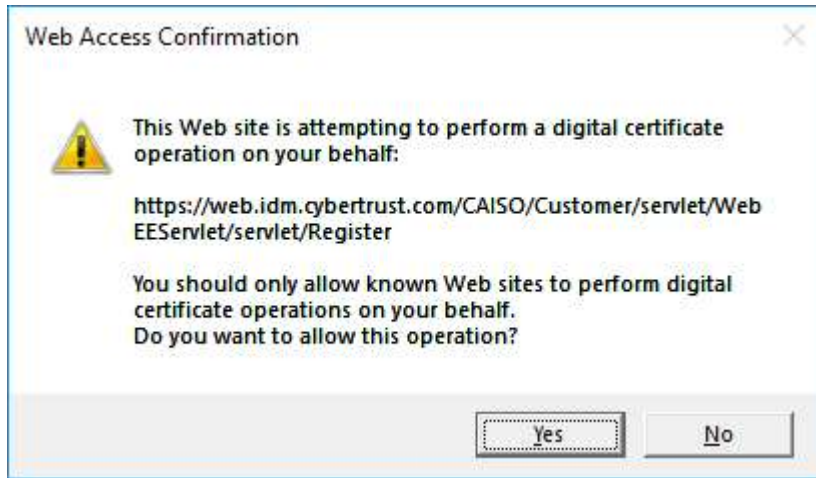

**Pickup Passphrase Confirmation**

**DO NOT MODIFY THIS FIELD**

Cryptographic Provider:  ▼

Submit

Click **Yes** if you receive a Web Access Confirmation pop-up window.

You will get a Certificate Request Submitted confirmation message.

MAKE NOTE OF THE TRANSACTION ID, AS IT WILL BE REQUIRED LATER FOR COLLECTING THE CERTIFICATE.

### Certificate Request Submitted

Note the transaction ID of your request for later certificate retrieval: [redacted]

You cannot collect your certificate without the transaction ID number.

The certificate request has been forwarded to the CA for approval.

The certificate should be ready shortly. Use the **Collect** command to retrieve it.
