

158 FERC ¶ 62,228

FEDERAL ENERGY REGULATORY COMMISSION
WASHINGTON, DC 20426

OFFICE OF ENERGY MARKET REGULATION

California Independent System Operator
Corporation
Docket No. ER17-415-001

Issued: March 24, 2017

California Independent System Operator
Corporation
250 Outcropping Way
Folsom, CA 95630

Attention: Bradley R. Miliauskas, Esq.
Attorney for the California Independent System Operator Corporation

Reference: Order Granting Uncontested Waiver

Dear Mr. Miliauskas:

On January 31, 2017, the California Independent System Operator Corporation (CAISO) submitted a request for waiver of certain administrative pricing provisions accepted by the Commission on January 30, 2017,¹ with an effective date of February 1, 2017. Specifically, CAISO requests waiver of tariff sections 7.7.1 through 7.7.9, 7.7.11 through 7.7.15, 16.3, and 29.7(j)(2)(D), and the definition in Appendix A to the tariff of the term “Administrative Price.” CAISO explains that it is unable to implement these tariff revisions on February 1, 2017, due to the unanticipated amount of software development and testing effort required to fully implement the administrative pricing policy. CAISO now plans to implement these revisions on April 1, 2017, which is also the scheduled implementation date of CAISO’s spring 2017 software release. CAISO explains that postponing the effective date of the referenced tariff sections until April 1, 2017, will, among other things, allow it to better manage software changes among the administrative pricing project and other projects in the same software release.

¹ *Cal. Indep. Sys. Operator, Corp.*, 158 FERC ¶ 61,085 (2017).

CAISO explains that good cause exists for the Commission to find that CAISO's request satisfies the Commission's waiver criteria. CAISO states that it has acted in good faith because it only recently became aware that it is unable to implement the tariff revisions on February 1, 2017. CAISO indicates that the waiver is of limited scope in that it will apply for only two months. CAISO further claims that the waiver will also remedy the concrete problem that CAISO cannot implement the tariff revisions on February 1, 2017, due to the need to change the software development schedule. Last, CAISO claims that the waiver will not have undesirable consequences, because it will maintain the status quo of the administrative pricing provisions set forth in the existing tariff language.

CAISO's filing was noticed on February 1, 2017, with interventions and protests due on or before February 21, 2017. Pursuant to Rule 214 of the Commission's Rules of Practice and Procedure,² any notices of intervention and timely filed, unopposed motions to intervene serve to make the filer a party to this proceeding. No protests were filed, and the request for waiver is therefore uncontested.

Pursuant to the authority delegated to the Director, Division of Electric Power Regulation – West, Office of Energy Market Regulation, in the Commission's February 3, 2017 Order Delegating Further Authority to Staff in Absence of Quorum,³ CAISO's uncontested request for waiver is granted. The Commission has granted waiver of tariff provisions where: (1) the applicant acted in good faith; (2) the waiver is of limited scope; (3) the waiver addresses a concrete problem; and (4) the waiver does not have undesirable consequences, such as harming third parties.⁴ Those criteria are satisfied here.

The grant of waiver herein shall not be construed as constituting approval of any rate, charge, classification, or any rule, regulation, or practice affecting such rate or service contained in your filing; nor shall it be deemed as recognition of any claimed contractual right or obligation associated therewith; and such grant is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against CAISO.

² 18 C.F.R. § 385.214 (2016).

⁴ *See, e.g., Midcontinent Indep. Sys. Operator, Inc.*, 154 FERC ¶ 61,059, at P 14 (2016); *Calpine Energy Serv., Inc.*, 154 FERC ¶ 61,082, at P 12 (2016); *New York Power Auth.*, 152 FERC ¶ 61,058, at P 22 (2015).

Consistent with Rule 1902 of the Commission's Rules of Practice and Procedure,⁵ requests for rehearing by the Commission may be filed within 30 days of the date of issuance of this order.⁶

Sincerely,

Steve P. Rodgers, Director
Division of Electric Power
Regulation – West
