

# Market Disruption Report November 16, 2023 to December 15, 2023

January 16, 2024

CAISO Market Performance and Advanced Analytics

California ISO 250 Outcropping Way Folsom, California 95630 (916) 351-4400

#### I. Background

A Market Disruption is an action or event that causes a failure of a CAISO Market, related to system operation issues or System Emergencies.<sup>1</sup> Pursuant to Section 7.7.6 of the CAISO Tariff, the CAISO can take one or more of several specified actions in the event of a Market Disruption, to prevent a Market Disruption, or to minimize the extent of a Market Disruption. The CAISO reports Market Disruption occurrence in the following circumstances:

- When the CAISO market processes fail to publish, including the Integrated Forward Market (IFM), Residual Unit Commitment (RUC), and the Real-Time Market which includes the Hour-Ahead Scheduling Process (HASP), Fifteen Minute Market (FMM), Decoupling of Short-Term Unit Commitment (DSTUC), and Real-Time Dispatch (RTD) processes;
- When the CAISO manually overrides closing the Day-Ahead Market; or
- Any time that the CAISO removes Bids from a CAISO Market to prevent a Market Disruption or to minimize the extent of a Market Disruption.

The Market Disruption report contains the following information:

- The frequency and types of actions taken by the CAISO under Section 7.7.6;
- The nature of the Market Disruptions that caused the CAISO to act, or the Market Disruptions successfully prevented or minimized by the CAISO by taking action, and the CAISO's rationale for taking such actions under Section 7.7.6;
- Information about the Bids (including Self-Schedules) removed under Section 7.7.6 (*i.e.*, megawatt quantity, point of interconnection, specification of the Day-Ahead versus Real-Time Bid, and Energy or Ancillary Services Bid); and
- The CAISO's rationale for its removal of Bids (including Self-Schedules) under Section 7.7.6.<sup>2</sup>

<sup>&</sup>lt;sup>1</sup> Section 7.6 and 7.7 of the CAISO Tariff refer to these system operation issues or System Emergencies, respectively. CAISO Tariff, Appendix A, definition of Market Disruption. Capitalized terms not otherwise defined herein have the meanings set forth in the CAISO Tariff.

<sup>&</sup>lt;sup>2</sup> *Id.* at P 29 & n.29.

## II. Report on Market Disruptions Occurring from November 16, 2023 through December 15, 2023

The CAISO provides a summary of Market Disruptions that occurred from November 16, 2023, through December 15, 2023, in Table 1 and Attachment A below. Attachment A includes an entry for each reportable Market Disruption event and each indicates:

- (1) The date of the Market Disruption;
- (2) The hour and Dispatch Interval when the Market Disruption ended;
- (3) The CAISO Market in which the Market Disruption occurred; and
- (4) A description of the Market Disruption, the nature of any actions taken by the CAISO, the rationale for such actions, and the Market Disruption prevented or minimized because of taking such actions.

For each of the CAISO Markets, Table 1 lists the number of Market Disruptions during the period covered by this report. As shown in Table 1, there were 19 Market Disruptions for the reporting period.

Type of CAISO Market	Market Disruption or Reportable Events
Day-Ahead	
IFM	0
RUC	0
Real-Time	
Fifteen Minute Market Interval 1	1
Fifteen Minute Market Interval 2	0
Fifteen Minute Market Interval 3	0
Fifteen Minute Market Interval 4	1
Real-Time Dispatch	17

Table 1: Summary of Market Disruption Report

The frequency of RTD failures decreased from 44 to 17 compared to the report for the period of October 16, 2023, through November 15, 2023. RTD failures accounted for approximately 89 percent of the Market Disruptions during this reporting period.

On December 11<sup>th</sup> there were six (two FMM, four RTD) interval disruptions due to the implementation of a market software patch. On November 29<sup>th</sup>, there

were two RTD interval disruptions where the previous market solution was used. On December 14<sup>th</sup>, there were two RTD interval disruptions due to running Real Time Contingency Dispatch (RTCD).

The CAISO made resources non-participating in RTD due to market failures on the following days – November 16<sup>th</sup>, November 17<sup>th</sup>, November 28<sup>th</sup>, November 29<sup>th</sup>, November 30<sup>th</sup>, December 9<sup>th</sup>, and December 12<sup>th</sup>. The resources were made non-participating strictly to resolve the RTD issues and not due to bidding concerns. Different resources were made non-participating for each day.

The CAISO made resources non-participating in FMM due to market failures on the following days – November 28<sup>th</sup>, November 30<sup>th</sup>, and December 16<sup>th</sup>. The resources were made non-participating strictly to resolve the FMM issues and not due to bidding concerns. Different resources were made non-participating for each day.

The CAISO made resources non-participating in RUC due to market failures on the following days – December 14<sup>th</sup>. The resources were made non-participating strictly to resolve the RUC issues and not due to bidding concerns. Different resources were made non-participating for each day.

There were two market disruptions for the same WEIM entity that occurred due to its own internal software issues. The first disruption occurred on November 20<sup>th</sup> from HE 8 interval 10 to HE 10 interval 6 in the RTD market, and from HE 8 interval 4 to HE 10 interval 2 in the FMM market. The second disruption occurred on November 23<sup>rd</sup> from HE 9 interval 1 to HE 10 interval 9 in the RTD market, and from HE 9 interval 1 to HE 10 interval 3 in the FMM market. The disruptions were isolated to this WEIM entity only and did not impact any other WEIM entities.

There was a market disruption for another WEIM entity due to its own software connectivity issue. The market disruption occurred on December 1<sup>st</sup> from HE 18 interval 1 to HE 21 interval 3 in the RTD market, and from HE 18 interval 1 to HE 21 interval 1 in the FMM market. The disruption was isolated to this WEIM entity only and did not impact any other WEIM entities.

#### Market Disruption for Unique Pricing Feature

The CAISO implemented a feature to ensure unique pricing under a degenerate condition in November 2015, which the CAISO implemented along with other pricing enhancements to improve market efficiency.

Table 2 captured below shows the dates and markets in which the pricing feature was disabled between November 16, 2023, and December 15, 2023. The CAISO enabled the uniqueness feature for all other intervals across all the markets for the timeframe captured in this report.

#### Table 2: Status of Unique Pricing Feature across Various Markets

The CAISO did not disable its pricing feature between November 16, 2023, and December 15, 2023, and, therefore, there is no data to populate Table 2.

 Table 3: Market Disruptions, Nature of Actions Taken by the CAISO, Rationale and/or Market Disruption

 Prevented or Minimized as a Result of such Actions

Count	Date	Hour	Interval	Market	Nature of Actions, Nature of Market Disruption, Rationale and/or Market Disruption Prevented or Minimized as a Result of such Actions
1	11/17/2023	9	3	RTD	RTD results were blocked and previous solution used.
2	11/20/2023	17	1	RTD	RTD results were blocked and previous solution used.
3	11/22/2023	21	11	RTD	RTD did not run due to running RTCD. The market results for this interval were filled based on the tariff sections 7.7.9 and 29.7(j).
4	11/22/2023	21	12	RTD	RTD did not run due to running RTCD. The market results for this interval were filled based on the tariff sections 7.7.9 and 29.7(j).
5	11/24/2023	12	1	RTD	RTD results were blocked and previous solution used.
6	11/29/2023	17	1	RTD	RTD results were blocked and previous solution used.
7	11/29/2023	17	2	RTD	RTD results were blocked and previous solution used.

Count	Date	Hour	Interval	Market	Nature of Actions, Nature of Market Disruption, Rationale and/or Market Disruption Prevented or Minimized as a Result of such Actions
8	12/6/2023	11	5	RTD	RTD results were blocked and previous solution used.
9	12/6/2023	13	1	RTD	RTD results were blocked and previous solution used.
10	12/8/2023	21	12	RTD	RTD results were blocked and previous solution used.
11	12/8/2023	22	7	RTD	RTD results were blocked and previous solution used.
12	12/11/2023	20	4	FMM	FMM did not run due to implementation of a market software patch.
13	12/11/2023	20	7	RTD	RTD did not run due to implementation of a market software patch. The market results for this interval were filled based on the tariff sections 7.7.9 and 29.7(j).
14	12/11/2023	20	8	RTD	RTD did not run due to implementation of a market software patch. The market results for this interval were filled based on the tariff sections 7.7.9 and 29.7(j).
15	12/11/2023	20	9	RTD	RTD did not run due to implementation of a market software patch. The market results for this interval were filled based on the tariff sections 7.7.9 and 29.7(j).
16	12/11/2023	20	10	RTD	RTD did not run due to implementation of a market software patch. The market results for this interval were filled based on the tariff sections 7.7.9 and 29.7(j).

Count	Date	Hour	Interval	Market	Nature of Actions, Nature of Market Disruption, Rationale and/or Market Disruption Prevented or Minimized as a Result of such Actions	
					FMM did not run due to implementation of a market software	
17	12/11/2023	21	1	FMM	patch. The market results for this interval were filled based on the tariff sections 7.7.9 and 29.7(j).	
	12/11/2020		•		RTD did not run due to running RTCD. The market results for	
					this interval were filled based on the tariff sections 7.7.9 and	
18	12/14/2023	12	9	RTD	29.7(j).	
					RTD did not run due to running RTCD. The market results for	
					this interval were filled based on the tariff sections 7.7.9 and	
19	12/14/2023	12	10	RTD	29.7(j).	
Notes:						
					CAISO conducts the market for purchases and sales of Energy for	
					bids, and procures Ancillary Services.	
	Residual Unit Commitment (RUC): The Day-Ahead Market run in which the CAISO conducts unit commitment of additional resources based on submitted availability bids and the forecast of demand for every hour of the next Trading Day.					
					ucted every Trading Hour before the Operating Hour. In this market	
					which applies to the Real-Time Market processes for the Trading	
	Hour. In this interval the CAISO also procures incremental Ancillary Services from internal resources and dynamic external resources.					
Fifteen Minute Market (FMM) Interval 2: The second of four market runs conducted every Trading Hour before the Operating Hour during which						
	the CAISO conducts the HASP. In the HASP, the CAISO conducts the procurement and sale of Energy and Ancillary services from non-					
dynamic System Resources based on submitted Bids and the CAISO Forecast of CAISO Demand. In this interval. the CAISO also conducts the advisory procurement of incremental Ancillary Services from internal resources and dynamic external resources from T to T+60 minutes and						
procurement for the Trading Hour.						
Fifteen Minute Market (FMM) Interval 3: The third of four market runs conducted every Trading Hour. During this interval, the CAISO commits						
internal Short-Start and Fast-Start Units for the Time Horizon of T-30 minutes to T+240 minutes. In this interval the CAISO also procures						
incremental Ancillary Services from internal resources and dynamic external resources for the Trading Hour.						
Fifteen Minute Market (FMM) Interval 4: The fourth of four market runs conducted every Trading Hour. This interval is for the Fifteen Minute						
Market for the T-105 minutes to T+60 minutes time horizon. In this interval, the CAISO also conducts 15-minute Ancillary Service Awards for non-Hourly System Resources, internal resources and dynamic external resources for the Trading Hour.						
Real-Time Dispatch (RTD): The five-minute interval of any Operating Hour during which the CAISO conducts the market for Energy based on						
submitted bids and the CAISO Forecast of CAISO Demand.
