RSI 2017

- **Available in Production now: MPs to provision the new CIRA roles in AIM accordingly for your organization:**
 - app_cira_supplier_read_ext
 - app_cira_supplier_write_ext
 - The new supplier roles have been created to provide suppliers access to:
 - (1) Outage analysis (for their outages)
 - (2) POSO analysis (for their outages)
 - (3) Provide substitutions for their planned outages.
 - Currently, the app_cira_sc role has access to the forced substitution screen which we are not changing but in the future we plan to separate the LSE role from the suppliers at which point only the suppliers will have access to the forced substitution functionality.
