Attention: John C. Anders
Lead Counsel

Reference: Revisions to Transmission Control Agreement

Dear Mr. Anders:

On April 1, 2014, the California Independent System Operator (CAISO) submitted revisions to Appendix E of the Transmission Control Agreement (TCA). CAISO states that the proposed changes to Appendix E of the TCA relate only to the transmission operating protocols applicable to the San Onofre Nuclear Generating Station (SONGS).¹ Specifically, the proposed changes to Appendix E provide that the requirements applicable to SONGS are set forth in a separate agreement or in any successor agreement, rather than being embodied in the TCA. CAISO states that the changes are needed because: (1) the current requirements no longer reflect the operational status of SONGS and therefore needed to be updated, and (2) the parties recognize that it is inefficient to include the specific protocols in the TCA because those protocols are subject to change over time and are already the subject of a separate agreement among the affected parties. CAISO's proposed changes to Appendix E of the TCA are accepted for filing effective June 1, 2014, as requested.

The filing was noticed on April 1, 2014, with comments, protests, or interventions due on or before April 22, 2014. No protests or adverse comments were filed. Notices of
