NOTICE OF EXTENSION OF TIME

(May 5, 2010)

On April 30, 2010, the California Independent System Operator Corporation (the ISO) filed a request on behalf of its Market Surveillance Committee (MSC) for an extension of time to file its analysis of alternatives to the ISO's current three-pivotal supplier test for determining local power, as required by the Commission's order issued September 21, 2006, in the above-referenced proceeding.¹ The motion states that granting an extension would permit a more complete consideration of issues raised in the ISO's 2009 Annual Report, allow for stakeholder input and also provide the MSC the time necessary to formally adopt its analysis as an official MSC Opinion.

Upon consideration, notice is hereby given that the ISO is granted an extension of time to and including May 28, 2010, to file the competitive screen analysis required by the September 21 Order.

Kimberly D. Bose,
Secretary.
