### Meeting Minutes Review

The January 4<sup>th</sup> meeting minutes have been posted.

### Weekly Market Performance Report

During the week of December 27 through January 9 there was congestion observed in both day-ahead and real-time market due to planned outages in Southern California. For this week, the majority of congestion is observed on the two constraints: OMS 4646120 ELD\_MKP\_SCIT\_NG and the 24138\_SERRANO\_500\_24137\_SERRANO\_230\_XF\_1\_P. The OMS nomogram is enforced for the El Dorado- Moenkopi 500 kV line outage and this outage is currently scheduled to end on January 19, 2018. The congestion on the 24138\_SERRANO\_500\_24137\_SERRANO\_230\_XF\_1\_P transformer is driven by outage on bank 3 which is currently scheduled to end on March 27, 2018.

On January 6, 2018, a regulation down scarcity occurred in the 15-minute market run in the CAISO expanded region for hour ending 8 interval 3. The procurement shortfall was 1.9 MW or 0.3% of the target procurement quantity. The regulation down scarcity was driven by a forced outage on a unit.

### Questions on the Weekly Market Performance Report

**None**

### Price Correction Reports

During the week of January 1-5, 2018, the ISO processed 2495 price corrections due to software defects. During the week of January 8-12, 2018, the ISO processed 3464 intervals due to software defects and data input errors.

### Questions on Price Correction Report

**None**

### General Questions

**Q:** What is causing the constraints related to the Gates transformer to bind on January 7, 8 and 9 and why is the limit reduced?

**A:** There was a planned outage of the Midway #2-500kV Bus, OMS 4859551, that requires the reduced limit.

<sup>1</sup> The California ISO (CAISO) hosts this bi-weekly market update conference call, generally at 10:15AM PST bi-monthly on Thursdays. This call is an opportunity for market participants to ask general questions regarding the market. Please send any questions to [CIDI system](#), which includes questions that have proprietary information and that might be commercially sensitive. Only general market-related questions which are neither proprietary, nor non time-sensitive should be sent to [market\\_issues@caiso.com](mailto:market_issues@caiso.com).

## General Reminders

- **NOTE:** The current best practice, and preferred method, of asking questions is to route through the **C**ustomer **I**nquiry, **D**ispute and **I**nformation system, “CIDI”.
- Please submit your questions ahead of the call; there are occasions when we have to gather information: submission ahead of time allows us more preparation time to reply.
- To add general comments/questions/requests to the **action item list or meeting agenda**, market participants should also open corresponding CIDI tickets with both the Functional Environment as “Market Performance” and SCID as “XPUB” by close of business (COB) on Mondays.
