**COMMENTS OF THE CALIFORNIA INDEPENDENT
SYSTEM OPERATOR CORPORATION IN SUPPORT OF THE
JOINT OFFER OF SETTLEMENT INVOLVING CAL POLAR AND REQUEST TO
ACCEPT COMMENTS ONE DAY OUT-OF-TIME**

Pursuant to Rule 602(f) of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (“Commission”), 18 C.F.R. § 385.602(f) (2010), the California Independent System Operator Corporation (“ISO”) hereby submits its comments on the Joint Offer of Settlement (“Settlement Agreement”) filed by Energy Venture Services, Inc., Chevron U.S.A, Inc.¹ and the California Parties² (collectively, the “Settling Parties”), in the above-captioned proceedings on October 31, 2012.

The ISO respectfully requests that the Commission accept these comments as filed one day out-of-time. Due to administrative difficulties, the ISO filed these comments less than one hour after the 5:00 pm deadline on November 20 and posted them on the listserv for the EL00-95 proceeding shortly thereafter. The ISO submits that no party will be prejudiced due to this short delay.

I. COMMENTS

A. The Settlement Agreement Directly Affects the ISO’s Interests.

Although the ISO is not a signatory to the Settlement Agreement, the ISO, along with the California Power Exchange (“PX”), will be responsible for reflecting this

¹ As explained in the Settlement Agreement, Cal Polar is not a party to the settlement because in 2003 it assigned all of its rights to funds associated with its transactions in California to Energy Venture Services, Inc., who subsequently assigned a portion of those rights to Chevron U.S.A., Inc. Settlement Agreement at 4.

² For purposes of the Settlement Agreement, the “California Parties” means, collectively, Pacific Gas and Electric Company, Southern California Edison Company, San Diego Gas & Electric Company, the People of the State of California, *ex rel.* Kamala D. Harris, Attorney General, the California Public Utilities Commission, and the California Department of Water Resources acting solely under authority and powers created by California Assembly Bill 1 of the First Extraordinary Session of 2001-2002, codified in Sections 80000 through 80270 of the California Water Code.

settlement on its books of account.³ For this reason, the ISO has a direct and substantial interest in the Commission's treatment of the Settlement Agreement.

B. The ISO Supports the Settlement Agreement.

The ISO has always supported the general principle that settlement is the preferred means for resolving complex disputes, even if the settlement involves only a selected subset of the litigants. In addition, this Commission has consistently encouraged parties to resolve disputes whenever possible through settlement.⁴ The Refund Proceeding has now been ongoing for over eleven years. Against this backdrop, the ISO continues to support the general principle of settlement as embodied in the Settlement Agreement offered by the Settling Parties. The approval of the proposed Settlement Agreement will allow certain amounts of cash to flow sooner than would otherwise be the case and in that respect will clearly benefit Market Participants.

The ISO also notes and supports the inclusion in the Settlement Agreement of a duty to cooperate on the part of the Settling Parties.⁵ It will be absolutely essential that the cooperation of the Settling Parties be maintained from the ISO's perspective, so that the proper financial adjustments can be made so as to properly implement the Settlement Agreement.

The ISO thanks the Settling Parties for their efforts to work together and reach agreement. It is the ISO's hope that the Commission will not have to become involved

³ See, in particular, 105 FERC ¶ 61,066 (2003), the Commission's Order on Rehearing, Docket Nos. EL00-95-081, *et al.*

⁴ *Cities of Anaheim, Azusa, Banning, Colton, and Riverside, California v. California Independent System Operator Corporation*, 96 FERC ¶ 61,024, at 61,065 (2001).

⁵ See, in particular, Section 6.3 of the Settlement and Release of Claims Agreement (Attachment B to Settlement Agreement).

in any implementation disputes involving this Settlement Agreement. However, recognizing that it is not possible to foresee every contingency that might arise, the procedural framework is in place to handle such disputes, if indeed they do arise.

C. The Commission Should State that the ISO's Directors, Officers, Employees and Consultants Will Be Held Harmless With Respect to the Settlement and Accounting Activities that the ISO Will Have to Perform in Order to Implement the Settlement Agreement.

As with previous settlements filed and approved in these proceedings, the circumstances of this Settlement Agreement make it necessary to hold harmless the market operators (*i.e.*, the ISO and the PX) that are ultimately tasked with implementing this Settlement Agreement,⁶ along with their directors, officers, employees and consultants. Therefore, in any order approving this Settlement Agreement, the Commission should state that the ISO, along with its directors, officers, employees and consultants, will be held harmless with respect to the settlement and accounting activities that it will have to perform in order to implement the Settlement Agreement, and that neither the ISO, nor its directors, officers, employees or consultants, will be responsible for recovering any funds disbursed pursuant to the Settlement Agreement, which are subsequently required to be repaid. As noted above, the Commission has already approved hold harmless language for

⁶ The ISO has requested hold harmless treatment in comments on previous settlements filed in this proceeding with respect to Duke, Williams, Mirant, Enron, PS Colorado, Reliant, IDACORP, Eugene Water and Electric Board, the Automated Power Exchange, Portland General, El Paso Merchant Energy, PacifiCorp, PPM Energy, Inc, Connectiv, Midway Sunset, the Cities of Anaheim, Azusa and Riverside, Grant County, Strategic Energy, Pinnacle West, NEG, PECO/Exelon, Salt River Project, Puget Sound, AES, Constellation, CFE, Cargill, LADWP, NCPA, Public Service Company of New Mexico, Tucson Electric Power, Sempra, City of Santa Clara, PPL Energy, City of Seattle, SMUD, the City of Pasadena, the City of Glendale, the City of Burbank, the Modesto Irrigation District, the Turlock Irrigation District, NV Energy, AEP, and Citizens/EMMT. The Commission has, to date, provided the ISO with hold harmless treatment with respect to all of these settlements on which it has ruled.

the ISO and the PX in the context of the California Parties' settlements with a number of entities. The factors that justified holding the ISO and PX harmless with respect to the implementation of these other settlements apply equally to the instant Settlement Agreement.

First, as with previous settlement agreements in these proceedings, the flow of funds pursuant to the Settlement Agreement will also require unprecedented accounting adjustments on the part of the ISO. These accounting adjustments will not be made under the terms of the ISO Tariff, but rather pursuant to the Settlement Agreement, the terms of which have been determined by a subset of parties to these proceedings. As the Commission is well aware, the ISO Markets ordinarily are not bilateral in nature. However, this settlement requires the ISO to adopt that fiction as between the Settling Parties, and make billing adjustments accordingly. A Market Participant might file a complaint or bring suit against the ISO, and/or its directors, officers, employees and consultants, claiming that the ISO did not make appropriate accounting adjustments, and as a result did not reflect the appropriate amount of refunds or receivables owing to that Market Participant.

Moreover, because the Settlement Agreement has been filed prior to the final orders in the Refund Proceeding, it is not certain that the Settling Parties' estimates of payables and receivables are accurate, and due to the complexity of the settlement, there may be additional, unforeseen impacts to ISO Market Participants. It is possible that such impacts would cause Market Participants to bring actions against the ISO (or its directors, officers, employees and consultants), as a result of the ISO's implementation of the Settlement Agreement.

These problems may be amplified as the Commission approves additional settlement agreements in these proceedings. As the number and variety of approved settlements increases, the task of implementing those settlements will become more complicated. Likewise, the possibility a party will bring an action against one, or both, of the market operators also increases. For this reason, the ISO believes that it is critically important that the Commission hold the ISO (along with its directors, officers, employees, and consultants) harmless with respect to the implementation of all of the settlements reached in these proceedings that involve the flow of monies through the ISO Markets.

A hold harmless provision would also be appropriate because the ISO is a non-profit public benefit corporation, and it would not be reasonable to subject its officers, employees, and consultants to suits claiming individual liability for engaging in the accounting necessary to implement the Settlement Agreement. These individuals should not be subjected to litigation, along with its attendant costs and expenditure of time, for merely implementing a settlement authorized by the Commission.

Finally, there is nothing in the Settlement Agreement that counsels against, or is inconsistent with, granting the ISO and the individuals associated with it the protection requested here. Indeed, the Settlement Agreement provides for numerous mutual releases and waivers, which will effectively “hold harmless” the Settling Parties from existing and potential claims. Moreover, the Settling Parties state that they do not oppose the Commission adopting hold harmless provisions for the ISO and PX.⁷

⁷ See Joint Explanatory Statement at 19 (Attachment A to Settlement Agreement).

For these reasons, the Commission, in any order approving the Settlement Agreement, should state that the ISO, along with its directors, officers, employees, and consultants will be held harmless with respect to the settlement and accounting activities that the ISO will have to perform in order to implement the Settlement Agreement, and that neither the ISO, nor its directors, officers, employees, or consultants will be responsible for recovering any funds disbursed pursuant to the Settlement Agreement, which are subsequently required to be repaid.

II. CONCLUSION

Wherefore, for the reasons stated above the ISO respectfully states that it supports the Settlement Agreement, and requests that the Commission accept these comments as filed one day out-of-time. The ISO also respectfully requests that the Commission state, in any order approving the Settlement Agreement, that the ISO, along with its directors, officers, employees, and consultants will be held harmless with respect to the settlement and accounting activities that it will have to perform in order to implement the Settlement Agreement, and that neither the ISO, nor its directors, officers, employees, or consultants will be responsible for recovering any funds disbursed pursuant to the Settlement Agreement, which are subsequently required to be repaid.

Respectfully Submitted,
