Pacific Gas and Electric Company (PG&E) appreciates the opportunity to participate in the stakeholder process for the California Independent System Operator's (CAISO) Draft Final Proposal for Transmission Reliability Margin (TRM) and submit comments on the associated proposed CAISO Tariff changes.

Comments

Given that the stakeholder call on the Draft Final Proposal has not yet been held, determining whether the proposed changes to the CAISO Tariff are appropriate or not is difficult. To that end, PG&E would like to reserve its rights to submit comments on the proposed tariff changes on February 28, along with its other comments from the stakeholder call. After the stakeholder call PG&E expects to have a better overall understanding of the TRM and how it should work and thus be in a better position to evaluate the tariff changes proposed.
