NOTES TO FINANCIAL STATEMENTS (Continued)			

The accompanying unaudited interim financial statements of the California ISO have been prepared in conformity with the requirements of the Federal Energy Regulatory Commission (FERC) as set forth in its applicable Uniform System of Accounts and published accounting releases. Accordingly, as required by the FERC, certain information has been presented differently or has been excluded from that which would be required by accounting principles generally accepted in the United States of America (GAAP) for state and local governments. Such differences include the classification of long-term debt and the balance sheet captions used for certain assets and liabilities as specified by FERC. Additionally, certain disclosures required by GAAP are not required to be presented by the FERC.

The Notes to the Financial Statements appearing in the FERC Form 1 Annual Report, which include descriptions of significant accounting policies, should be read in conjunction with these interim financial statements.
