

Memorandum

To: ISO Board of Governors
From: Karen Edson, Vice President, Policy and Client Services
Date: July 16, 2010
Re: **Informational Report on BPM Change Management Activities**

This memorandum does not require Board action.

EXECUTIVE SUMMARY

This memorandum is a regular report required by the Federal Energy Regulatory Commission to inform the California Independent System Operator Corporation Board of Governors on the status of the business practice manual change requests submitted by stakeholders and the ISO.

The ISO inaugurated the public change management process for business practice manuals (BPMs) on April 1, 2009. Both the ISO and stakeholders use the same electronic system and process to submit and track proposed changes to the BPMs. The process includes stakeholder review, ISO approval or rejection, and a possible appeal to the BPM Appeals Committee, which is comprised of three ISO officers.

As of June 27, 2010, 81 proposed revision requests (PRRs) were active in the BPM change management system, of which, 99% were submitted by the ISO. The California Department of Water Resources submitted 1 PRR. These 81 active PRRs impact the following BPMs:

- 1 BPM Change Management
- 1 Compliance Monitoring
- 4 Definitions and Acronyms
- 1 Managing Full Network Model
- 2 Market Instruments
- 2 Market Operations
- 1 Metering
- 1 Outage Management
- 2 Reliability Requirements
- 1 Rules of Conduct Administration
- 1 Scheduling Coordinator Certification and Termination
- 64 Settlements and Billing

No BPM decisions are under stakeholder appeal.

PROCESS OVERVIEW

The ISO held the monthly BPM change management stakeholder meeting on June 22, 2010. The meeting, which was conducted by conference call, included twelve stakeholders. Based on the nature of that meeting, and upon the types of comments entered into the BPM change management electronic system, it appears that stakeholders are generally satisfied with the process, as well as with the progress made on the active PRRs.

BPM CHANGE MANAGEMENT REPORT

The current *Board Update: BPM Change Management Process* report, which includes all the active PRRs as of June 27, 2010, is included as Attachment 1. In compliance with the tariff Board reporting requirements, the report:

- Summarizes the total number of active PRRs submitted by stakeholders and by the ISO;
- Depicts the number of active PRRs in various steps along the PRR lifecycle, as of June 27, 2010;
- Reflects those PRRs upon which Management has posted its final decision for the period April 16, 2010 through June 27, 2010; and
- Includes PRRs currently under stakeholder appeal, the stakeholder positions on rejected PRRs, and the reasons for rejection.

The following is additional relevant information:

- No PRRs are under stakeholder appeal.
- Seven of the active PRRs were submitted into the electronic system by the ISO on an emergency basis. Five of those PRRs are related to the Settlements and Billing BPM; one is related to the Market Operations BPM; and one is related to the Reliability Requirements BPM.
- A PRR report as of June 27, 2010 is included as Attachment 2. This report summarizes PRRs added to the BPM change management system since the May Board report.
