Average Actual Availability	94.71%	96.03%	94.33%	94.31%	97.63%	96.38%	94.51%	95.65%	95.92%	96.22%	95.96%	96.6%
Non-Availability Charges Assessed	\$ 3,279,624	\$ 2,661,433	\$ 4,904,700	\$ 5,110,858	\$ 3,138,021	\$ 3,922,341	\$ 4,483,280	\$ 5,032,116	\$ 3,607,237	\$ 2,900,400	\$ 2,943,762	\$ 4,474,754
Incentive Payments Paid	\$ (1,098,466)	\$ (1,479,894)	\$ (1,192,503)	\$ (1,142,099)	\$ (1,561,148)	\$ (1,787,070)	\$ (1,884,093)	\$ (2,222,514)	\$ (1,758,049)	\$ (1,776,320)	\$ (1,521,046)	\$ (1,825,840)

Notes:

The average actual availability are for availability assessment hours (AAH) where resources are assessed RAIM, not all hours of the day.

Average actual availability is computed as % of monthly availability to monthly obligation per resource, then weighted by MW of availability to get average across all resources.

The values for charges and payments reflect settlement statements that have been produced as of May 2025 but the final values may change based on further recalculation settlement statements.
