# ISO Policy Initiative Stakeholder Process

# Extended Parking

# ISO proposed parking extension

The ISO proposed to extend the parking option period for one additional year when the following criterion is met:

## **Criterion 1:**

A project will only be allowed to park for a second year when there is TP Deliverability still available in the project's area.

## **Criterion 2:**

If a project has a network upgrade assigned to it, which is needed by later clustered projects, parking for a second year will not be allowed.

## **Tendering of an Interconnection Agreement**

To mitigate risk to a PTO, a project must come out of parking status to be tendered a GIA, including the first year and second year of parking.

# Stakeholder Comments were evenly mixed. CAISO made no changes to proposal

- Supportive
  - Provides more time for developers to obtain a purchase agreement.
  - Provides benefits to LSEs RPS procurement process.
  - Suggested additional years of parking be available.
- Opposed
  - Allows projects to linger in queue unnecessarily.
  - Believe that one year of parking strikes a good balance for projects to remain in the queue.
  - Some procurement procedures do not rely on study results or TP Deliverability Allocation results.

# Interconnection Request Window & Validation Timelines

# The ISO proposed to shorten the cluster application window and increase the validation period

	<b>Current Timeline</b>	<b>Proposed Timeline</b>	<b>Tariff Section</b>
<b>IR/Application Window Opens</b>	April 1	April 1	3.3.1
<b>IR/Application Window Closes</b>	April 30	April 15	3.3.1
<b>IR Validation</b>	Within 20 BDs after close of application window	No later than May 31	3.5.2.2
<b>Pro-forma Study Agreement to Interconnection Customer</b>	Within 30 CD after close of application window	No later than May 31	6.1.1
<b>Scoping Meeting held</b>	Within 60 CD after close of application window	No later than June 30	6.1.2

BD = Business Days. CD = Calendar Days. Deadlines falling on non-BDs move to next BD.

# Stakeholder comments & proposal unchanged

- All stakeholders are supportive of the shortened window proposal, have no concerns, or did not comment.
- ISO proposal is unchanged in the revised straw proposal.
