# Introduction

- This is the fifth in the series of Convergence Bidding Working Group conference calls focused on technical and implementation challenges

# Request for Market Participant Feedback

- Position Limits apply at the "corporate entity" level
- Questions:
  1. If your corporate entity has multiple SCIDs, will you use one SCID or multiple SCIDs to submit convergence bids?
  2. If you intend to use multiple SCIDs, will you use multiple SCIDs to submit multiple convergence bids at a single Pnode or will your different SCIDs be used to submit convergence bids at mutually exclusive Pnodes/APnodes?
  3. If you submit multiple convergence bids at a single Pnode using multiple SCIDs, is your intent to allocate a fixed percentage of the nodal limit to each SCID, or is the intent to allow flexibility in the "use" of the position limit by either SCID?
