Re: California Independent System Operator Corporation

**Informational Filing of Effective Date of Multiple Tariff
Amendments Related to DAME-EDAM Implementation**

**Docket Nos: ER23-2686-000
ER23-2686-001
ER24-379-000
ER24-1746-000
ER25-437-000**

Dear Secretary Reese:

The California Independent System Operator Corporation (CAISO) submits this informational filing of the effective date of multiple CAISO tariff amendments related to implementation of the Day-Ahead Market Enhancements (DAME) and the Enhanced Day-Ahead Market (EDAM) designs.¹

I. Informational Filing

On August 22, 2023, the CAISO filed a tariff amendment in above-captioned Docket No. ER23-2686 to implement the DAME and EDAM designs. By order issued December 20, 2023, the Commission accepted in part and rejected in part, subject to condition, these tariff revisions.² On February 16, 2024, the CAISO submitted the compliance filing directed in that order. By order issued April 30, 2024, the Commission accepted the further tariff revisions contained in the compliance filing with two effective dates: December 21, 2023 for the subset of further tariff revisions to support the DAME-EDAM

¹ Capitalized terms not otherwise defined herein have the meaning set forth in the CAISO tariff.

² *Cal. Indep. Sys. Operator Corp.*, 185 FERC ¶ 61,210 (2023) (DAME-EDAM Order).

implementation process and a future unspecified (12/31/9998) date for the balance of the further tariff revisions to support DAME-EDAM operation. The Commission also directed the CAISO to submit an informational filing to inform the Commission of the actual effective date of the DAME-EDAM revisions supporting operation, *i.e.*, the implementation date for DAME-EDAM.³

This informational filing complies with the Commission's directive in the April 30 Order and establishes the effective date for the balance of the further tariff revisions to support DAME-EDAM operations with two exceptions, tariff sections 33.32.5 and 29.32.1. These tariff sections describe the application of a new Greenhouse Gas (GHG) net export constraint in the day-ahead and real-time markets. This constraint augments the market design to reduce the potential for emissions leakage resulting from day-ahead market and real-time market transfers into California balancing authority areas. Based on the results observed in parallel operations testing, implementation of these two specific tariff provisions at this time may cause anomalous outcomes.⁴ The CAISO plans to take additional time to assess implementation of the GHG net export constraint with production data, and work with stakeholders to deploy this constraint effectively without the risk of creating anomalous results. Accordingly, the CAISO excludes these two tariff sections from being made effective according to this informational filing. They will become effective on a subsequent date when the CAISO submits an informational filing to the Commission after that date is known. If the CAISO and stakeholders identify the need to modify these tariff sections to deploy the constraint effectively, the CAISO will make an appropriate filing with the Commission.

In addition, since the initial DAME-EDAM tariff amendment filing on August 22, 2023, CAISO has submitted several subsequent DAME-EDAM related tariff amendments in the above-captioned dockets besides Docket No. ER23-2686 as explained below.⁵ This informational filing also addresses the

³ *Cal. Indep. Sys. Operator Corp.*, Commission letter order, Docket No. ER23-2686-001 (Apr. 30, 2024) (April 30 Order). Specifically, the Commission directed the CAISO to notify the Commission of the actual effective date of the tariff revisions within five business days of their implementation in an eTariff submittal using Type of Filing Code 150 – Report. *Id.* The CAISO is submitting this informational filing for all of the above-captioned dockets seven days prior to implementation for the sake of consistency.

⁴ The CAISO has informed stakeholders participating in parallel operations that it will not activate the GHG net export constraint at EDAM launch on May 1, 2026 and will continue to work with stakeholders on its deployment.

⁵ Two dockets noted in this informational filing, Docket Nos. ER25-2637-000 and ER26-1294-000, are subject to a Commission directive to file a compliance filing regarding the effective date of the associated tariff records rather than an informational filing. These dockets are discussed in this transmittal letter and the attached table but are not captioned above so there is a single submission that describes all of the tariff DAME-EDAM tariff revisions. However, the tariff records in these two dockets remain subject to the associated compliance filings rather than this informational filing.

Commission's directives in these dockets and establishes the effective date for those amendments. The CAISO has consolidated these informational filing requirements into this single filing because the associated tariff provisions will have the same effective date, allowing this informational filing to provide a comprehensive record for the DAME-EDAM tariff amendments and simplify the submission process.⁶

On November 13, 2023, the CAISO filed a tariff amendment in above-captioned Docket No. ER24-379 to implement participation by the CAISO balancing authority area in EDAM. By order issued March 7, 2024, the Commission accepted in part, and rejected in part, these tariff revisions, and directed the CAISO to submit an informational filing to inform the Commission of the actual effective date of the accepted tariff revisions.⁷

On April 12, 2024, the CAISO filed a tariff amendment in above-captioned Docket No. ER24-1746 to implement the EDAM access charge in balancing authority areas other than the CAISO's, which the Commission had rejected without prejudice in the DAME-EDAM Order and removed in the February 16, 2024 compliance filing in Docket No. ER23-2686. By order issued June 11, 2024, the Commission accepted the tariff revisions and directed the CAISO to submit an informational filing to inform the Commission of the actual effective date.⁸

On November 14, 2024, the CAISO filed a tariff amendment in above-captioned Docket No. ER25-437 to implement the EDAM access charge in the CAISO balancing authority area, which the Commission had rejected without prejudice by the Commission in the March 7, 2024 order described above. By

⁶ This informational filing does not address one such Commission requirement (in addition to the compliance filings described in footnote 5). On October 15, 2024, the CAISO filed a tariff amendment to enable inter-scheduling coordinator (inter-SC) trades of energy in balancing authority areas participating in the Western Energy Imbalance Market (WEIM) and the EDAM. The Commission accepted that tariff amendment to be effective subject to notice of the actual effective date using Type of Filing Code 150 – Report. *Cal. Indep. Sys. Operator Corp.*, 189 FERC ¶ 61,224, at PP 9-10 (2024). The implementation of this inter-SC trading option has been separated from the initial DAME-EDAM implementation and will be addressed in a subsequent informational filing anticipated by the end of 2026.

⁷ *Cal. Indep. Sys. Operator Corp.*, 186 FERC ¶ 61,170 (2024). The Commission directed the CAISO to notify the Commission of the actual effective date of the tariff revisions within five business days of their implementation in an eTariff submittal using Type of Filing Code 150 – Report. *Id.* at Ordering Paragraph (B).

⁸ *Cal. Indep. Sys. Operator Corp.*, 187 FERC ¶ 61,154 (2024). The Commission directed the CAISO to notify the Commission of the actual effective date of the tariff revisions within five business days of their implementation in an eTariff submittal using Type of Filing Code 150 – Report. *Id.* at Ordering Paragraph (C).

order issued February 20, 2025, the Commission accepted these tariff revisions and directed the CAISO to submit an informational filing to inform the Commission of the actual effective date.⁹

On June 26, 2025, the CAISO filed a tariff amendment in above-captioned Docket No. ER25-2637 to implement congestion revenue allocation enhancements in EDAM. By order issued August 29, 2025, the Commission accepted these tariff revisions and directed the CAISO to submit a compliance filing to inform the Commission of the actual effective date.¹⁰

On February 6, 2026, the CAISO filed a tariff amendment in above-captioned Docket No. ER26-1294 to support the implementation of the EDAM-DAME initiative. By order issued April 8, 2026, the Commission accepted these tariff revisions and directed the CAISO to submit a compliance filing to inform the Commission of the actual effective date.¹¹

The CAISO intends to implement the above referenced tariff revisions on May 1, 2026. Accordingly, the CAISO is submitting this informational filing to specify an effective date of May 1, 2026 for the tariff revisions accepted by the Commission in all of the above-captioned dockets.¹²

⁹ *Cal. Indep. Sys. Operator Corp.*, 190 FERC ¶ 61,097 (2025). The Commission directed the CAISO to notify the Commission of the actual effective date of the tariff revisions seven days prior to implementation in an eTariff submittal using Type of Filing Code 150 – Report. *Id.* at Ordering Paragraph (B).

¹⁰ *Cal. Indep. Sys. Operator Corp.*, 192 FERC ¶ 61,196 (2025). The Commission directed the CAISO to notify the Commission of the actual effective date of the tariff revisions seven days prior to implementation in an eTariff submittal using Type of Filing Code 80 – Compliance. *Id.* at P 32 n.47. The CAISO will provide the compliance filing in this docket immediately following this informational filing.

¹¹ *Cal. Indep. Sys. Operator Corp.*, 195 FERC ¶ 61,018 (2026). The Commission directed the CAISO to notify the Commission of the actual effective date of the tariff revisions seven days prior to implementation, in an eTariff submittal using Type of Filing Code 80 – Compliance. *Id.* at P 41 n.59. The CAISO will provide the compliance filing in this docket immediately following this informational filing.

¹² Specifically, this informational filing in conjunction with the associated compliance filings noted in footnotes 10 and 11, updates the effective date for all CAISO tariff records listed in the table included as Attachment A hereto. Certain tariff records have already been superseded and are referenced as such in the table. The CAISO is submitting the informational filing in eTariff using Type of Filing Code 150. As noted above, the CAISO will also submit an eTariff submittal using Type of Filing Code 80 for some tariff records. The CAISO will reconcile the effective date of all associated tariff sections in a subsequent filing given the scope and complexity of these tariff records, which the CAISO anticipates it will submit by June 30, 2026.

II. Conclusion

The CAISO has served copies of this informational filing on all the parties to the service lists for the above-captioned dockets and the dockets subject to compliance as noted in this informational filing. In addition, the CAISO is posting this filing on the CAISO website.

If there are any questions concerning this informational filing, please contact the undersigned.

Respectfully submitted,

By: /s/ John Anders

CERTIFICATE OF SERVICE

I certify that I have served the foregoing document upon the parties listed on the official service lists in the captioned dockets, in accordance with the requirements of Rule 2010 of the Commission's Rules of Practice and Procedure (18 C.F.R. § 385.2010).

Dated at Folsom, California this 24th day of April 2026.

/s/ Jacqueline Meredith

Jacqueline Meredith
