

Briefing on PacifiCorp Integration

Philip Pettingill
Director of Regional Integration

Board of Governors Meeting
General Session
September 17-18, 2015

PacifiCorp progresses in exploring full participation transmission owner status with ISO

- PacifiCorp working to complete benefits study and ISO staff supporting the effort
- Three key phases to evolve progress:
 1. Determine policy and tariff changes to expand balancing authority area into five additional states
 2. Seek necessary authorizations from the regulatory entities in the six states
 3. Plan and implement the software and market design changes

ISO management plans to initiate the following stakeholder processes beginning in Q4 of 2015:

1. Regional transmission access charge structure
2. Compliance with CA's greenhouse gas regulations
3. Resource adequacy rules
4. Full network model enhancements
5. Metering rules updates
6. Transitional implementation items

Full integration requires careful consideration of existing policies and tariff provisions.

Illustrative Phases – Actual durations TBD
