---

***This memorandum does not require ISO Board of Governors action.***

As required by the Federal Energy Regulatory Commission, Management provides this report to inform the ISO Board of Governors on the status of the business practice manual (BPM) change requests submitted by stakeholders and/or the California Independent System Operator Corporation.

Both the ISO and stakeholders use the same electronic system and process to submit and track proposed changes to the business practice manuals. The process includes stakeholder review, ISO approval or rejection, and a possible appeal to the Business Practice Manual Appeals Committee, which is comprised of three ISO officers.

As of June 25, 2026, the following table represents the active proposed revision requests (PRRs) in the business practice manual change management system.

(Continued on next page)

<b>Business Practice Manual (BPM)</b>	<b># of PRRs</b>
Direct Telemetry	1
Energy Imbalance Market	1
Extended Day-Ahead Market	4
Market Instruments	1
Market Operations	5
Outage Management	1
Reliability Requirements	2
Scheduling Coordinator Certification and Termination	1
Settlements and Billing	5
<b>Total</b>	<b>21</b>

\*Comparing total to the BPM Attachment: two (2) active PRRs are in the Initial commenting stage, six (6) active PRRs are in the Pending recommendation stage, four (4) PRRs are in the Pending final decision stage, and nine (9) PRRs were closed.

## **PROCESS OVERVIEW**

The ISO held three (3) monthly BPM change management stakeholder meetings since the submittal of the previous report to the ISO Board of Governors. There was a stakeholder meeting on April 28, 2026, in which forty-eight (48) stakeholders participated; on May 26, 2026, in which twenty-seven (27) stakeholders participated; on June 23, 2026, in which forty-one (41) stakeholders participated.

Based on stakeholder comments during the meetings and comments entered into the BPM change management electronic system, it appears that stakeholders are generally satisfied with the process.

## **BPM CHANGE MANAGEMENT REPORT**

In compliance with the tariff reporting requirements, attachment 1 of this report:

- states the total number of active PRRs submitted by stakeholders and/or by the ISO;
- depicts the active PRRs in various stages along the PRR lifecycle;
- provides details pertaining to the active PRRs; and
- provides final decision status regarding PRRs that were closed either by adoption, rejection, or withdrawal.
